At Hawthorn Tree Primary School we recognise that the personal development of pupils, spiritually, morally, socially and culturally (SMSC) plays a significant part in their ability to learn and achieve. We therefore aim to provide an education that provides pupils with opportunities to explore and develop:

- their own values and beliefs,
- spiritual awareness,
- high standards of personal behaviour,
- a positive, caring attitude towards other people,
- an understanding of their social and cultural traditions
- and an appreciation of the diversity and richness of the cultures.

SMSC is a dimension of the whole school experience which makes the curriculum relevant, stimulating, creative and fun. It enriches each subject and the ethos of Hawthorn Tree and is an essential ingredient of school success. The SMSC policy provides the school with the opportunity to meet our Public Sector Equality Duty (PSED) to

- Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act.
- Advance equality of opportunity between people who share a protected characteristic and those who do not.
- Foster good relations between people who share a protected characteristic and those who do not.

Guideline

All curriculum areas have a contribution to make to the child's spiritual, moral, social and cultural development and opportunities for this will be planned in each area of the curriculum.

All adults will model and promote expected behaviour, treating all people as unique and valuable individuals and showing respect for pupils and their families.

The school community will be a place where pupils can find acceptance for themselves as unique individuals and where forgiveness and the opportunity to start again is fundamental to the ethos of the school.

Pupils should learn to differentiate between right and wrong in as far as their actions affect other people. They will be encouraged to value themselves and others.

Pupils should understand the need for rules and the need to abide by rules for the good of everyone. School and classroom rules should reflect, reiterate, promote and reward acceptable behaviour and provide opportunities to celebrate pupils' work and achievements. All curriculum areas should seek to use illustrations and examples drawn from as wide a range of cultural contexts as possible. This will be reflected in teacher's planning and purchasing decisions.

Teaching and Organisation

Development in SMSC will take place across all curriculum areas, within activities that encourage pupils to recognise the spiritual dimension of their learning, reflect on the significance of what they are learning, and to recognise any challenges that there may be to their own attitude and lifestyle. Teachers will inspire pupils through the enthusiasm for and modelling of learning. Teachers at Hawthorn Tree will use creative strategies and challenging questions to engage pupils in their learning and relate it to their own experiences.

All curriculum areas should seek illustrations and examples drawn from as wide a range of cultural contexts as possible.

Class discussions and circle time will give pupils opportunities to:

- Talk about personal experiences and feelings and express and clarify their own ideas and beliefs.
- Speak about difficult events, e.g. bullying, death etc.
- Share thoughts and feelings with other people and explore relationships with friends/family/others.
- Consider others needs and behaviour and show empathy.
- Develop self-esteem and a respect for others.
- Develop a sense of belonging.
- Develop the skills and attitudes that enable pupils to develop socially, morally, spiritually and culturally – e.g. empathy, respect, open mindedness, sensitivity, critical awareness, etc (for comprehensive list see attached sheet).

- Agree and disagree.
- Take turns and share equipment.

Links with the wider community

- Visitors are welcomed into school.

- The development of a strong home-school link is regarded as very important, enabling parents, teachers and the wider community to work in an effective partnership to make sure that we give our pupils the best possible environment in which to grow, flourish and learn.
- Pupils will be taught to appreciate their local environment and to develop a sense of responsibility for it.

SMSC Development

Spiritual development

Pupils' spiritual development involves the growth of their sense of self, their unique potential, their understanding of their strengths and weaknesses, and their will to achieve. As their curiosity about themselves and their place in the world increases, they try to answer for themselves some of life's fundamental questions. They develop the knowledge, skills, understanding, qualities and attitudes they need to foster their own inner lives and non-material wellbeing.

Moral development

Pupils' moral development involves pupils acquiring an understanding of the difference between right and wrong and of moral conflict, a concern for others and the will to do what is right. They are able and willing to reflect on the consequences of their actions and learn how to forgive themselves and others. They develop the knowledge, skills and understanding, qualities and attitudes they need in order to make responsible moral decisions and act on them.

Social development

Pupils' social development involves pupils acquiring an understanding of the responsibilities and rights of being members of families and communities (local, national and global), and an ability to relate to others and to work with others for the common good. They display a sense of belonging and an increasing willingness to participate. They develop the knowledge, skills, understanding, qualities and attitudes they need to make an active contribution to the democratic process in each of their communities.

Cultural development

Pupils' cultural development involves pupils acquiring an understanding of cultural traditions and an ability to appreciate and respond to a variety of aesthetic experiences. They acquire a respect for their own culture and that of others, an interest in others' ways of doing things and curiosity about differences. They develop the knowledge, skills, understanding, qualities and attitudes they need to understand, appreciate and contribute to culture.
