

## Special Additional Newsletter - London Residential: Wednesday Highlights

Dear Parents and Carers,

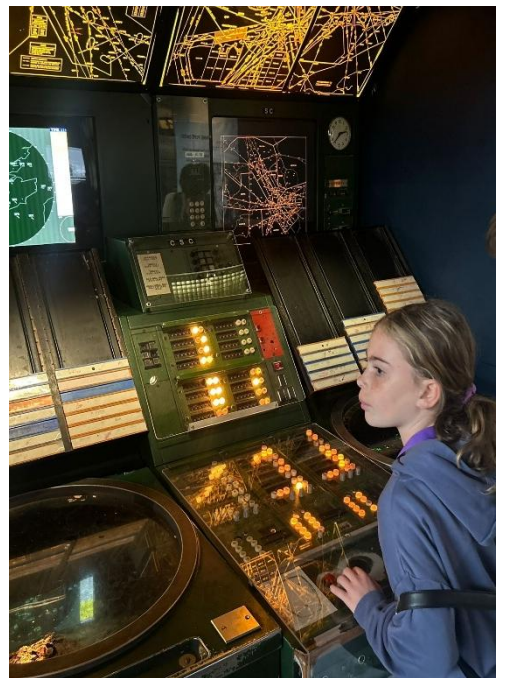

I am pleased to share my final update of photos from our London Residential.

Their final visit was to the **Science Museum**, where pupils explored a wide range of fascinating and interactive exhibits. They enjoyed learning about space exploration, engineering, and technological innovation, alongside seeing real-life historic objects such as aircraft, rockets, and ground-breaking inventions. The hands-on displays were a real highlight, allowing the children to engage with science in an exciting and memorable way.

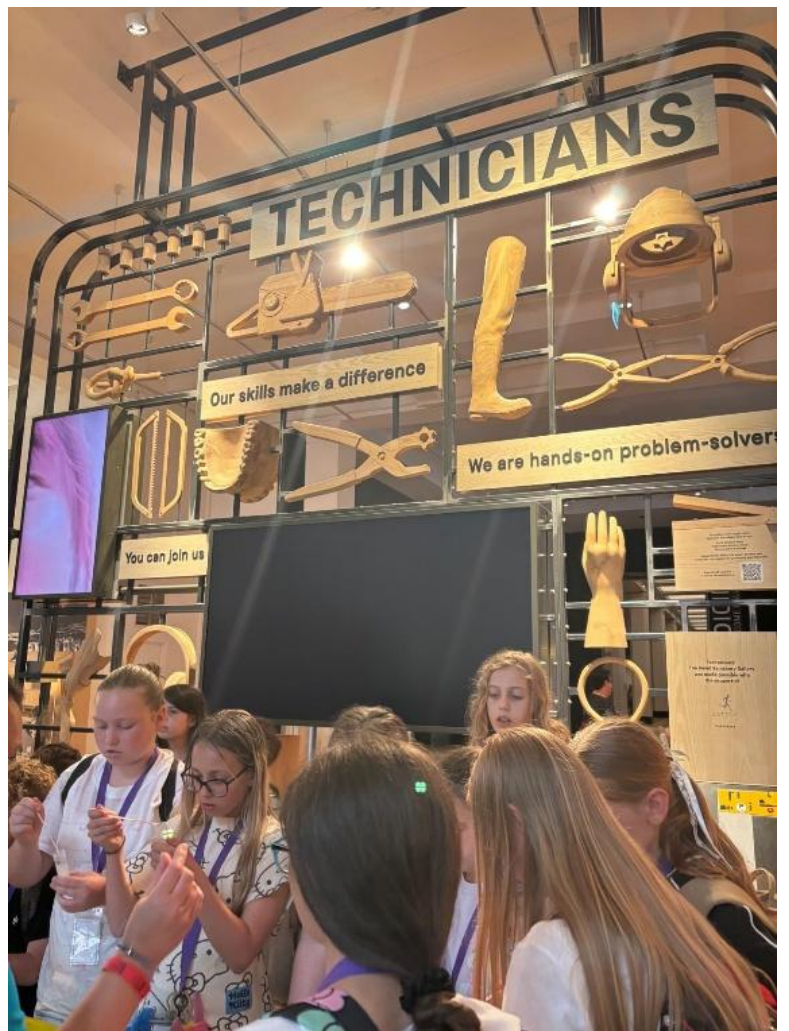

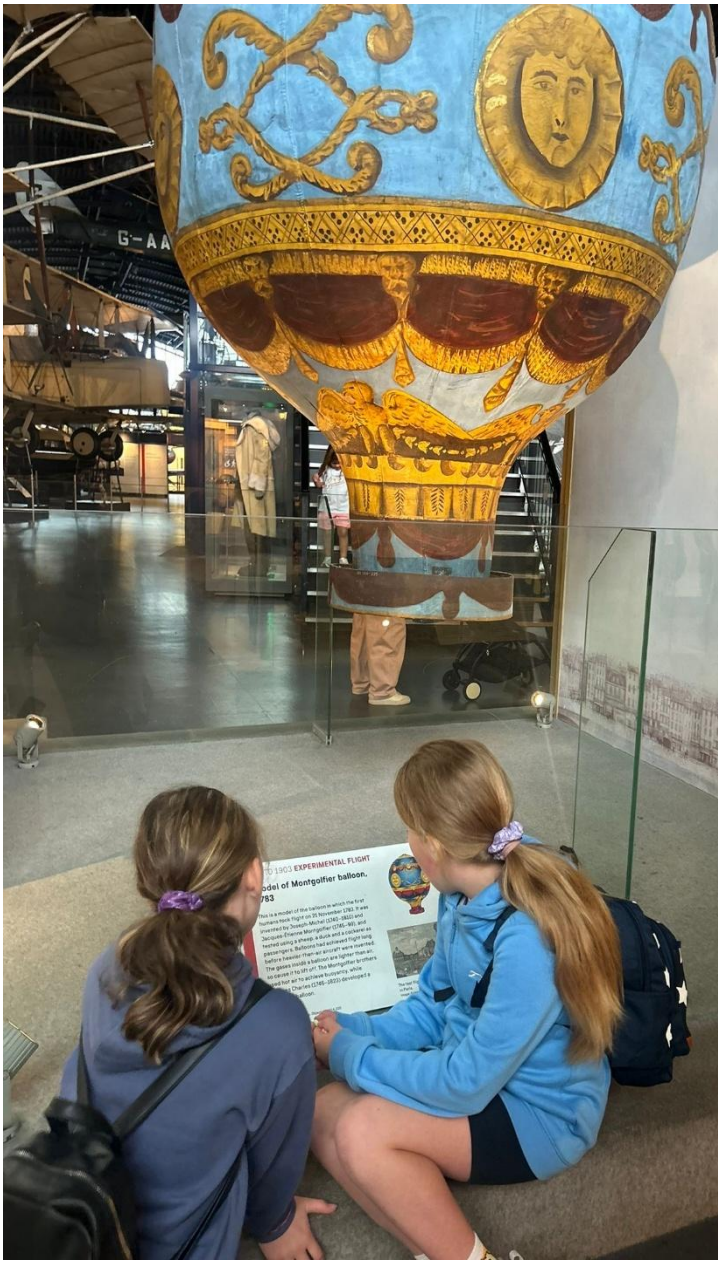

Overall, it has been a truly wonderful few days filled with learning, laughter and new experiences. We are incredibly proud of all the children, they represented the Federation brilliantly, showing enthusiasm, curiosity, and excellent behaviour throughout. Thank you to the staff who made this all possible!
