

Accessibility Plan 2025 - 2026

Vision Statement

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”. According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education’s guidance on statutory policies for schools. The Plan must be reviewed every three years and approved by the Governing Body. The review process can be delegated to a committee of the Governing Body, an individual or the Head.

At WWJI we are committed to working together to provide an inspirational and exciting learning environment where all children can develop an enthusiasm for life-long learning. We believe that children should feel happy, safe and valued so that they gain a respectful, caring attitude towards each other and the environment both locally and globally.

Whole school training will recognize the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010. 1

The Accessibility Plan will be published on the school website.

Aims and Objectives

- 1. To increase the extent to which disabled pupils can participate in the school curriculum**
- 2. To improve the physical environment of the school to increase the extent to which pupils with a disability, medical condition or other access needs can access education and associated services.**
- 3. Improve the delivery of information to pupils, staff, parents/carers and other members of the school community**

Our objectives are detailed in the Action Plan below.

The Accessibility Plan has been developed and drawn up based upon information supplied by the Academy Trust consultations with pupils, parents, staff and governors of the school. The document will be used to advise other school planning documents and policies and will be reported upon annually in respect of progress and outcomes.

We are committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to adhering to the principles of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

Our Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipates the need to make reasonable adjustments to accommodate their needs where practicable.

The Accessibility Plan relates to the key aspects of curriculum, physical environment and written information:

Curriculum

Increase access to the curriculum for pupils with a disability, adapting the curriculum as necessary. This includes teaching and learning and the wider curriculum of the school such as participation in after-school clubs, sports events, leisure and cultural activities or schools visits – it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe (If a school fails to do this they are in breach of their duties under the Equalities Act 2010).

Physical Environment

Improve and maintain access to the physical environment of the school, adding specialist facilities as necessary – this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;

WriGen Information

Where needed, adapt the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include adaptations to hand-outs, timetables, textbooks and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe.

Whole school training will recognise the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

This Accessibility Plan should be read in conjunction with the following school policies, strategies and documents:

- Health & Safety Policy
- Special Educational Needs Policy
- Supporting Children with Medical Conditions and Administration of Medicines Policy
- Educational Visits Policy

Current Good Practice

We aim to ask about any disability or health condition in early communications with new parents and carers. For parents and carers of children already at the school, we collect information on disability through medical care plans and SEND review meetings

Curriculum

Through planning for individual need, we aim to provide as inclusive an approach as practically possible. Some areas of the curriculum present particular challenges, for example: PE for pupils with a physical impairment, however all reasonable adjustments are made to support as full an involvement as possible. The SENDCo provides additional support for pupils and supports teachers in implementing strategies for improving pupils' access to learning.

The school works closely with specialist services including:

- Educational Psychology
- LSS

- Hearing Impairment Team
- Speech and Language Therapy
- Community Pediatrics
- CAMHS
- School Nursing

Physical Environment

The aim is to continue to enhance the environment to meet the needs of all pupils and ensure that they have access to all aspects of education offered by the school. Disabled pupils participate in extra-curricular activities. Some aspects of extra-curricular activities present particular challenges, for example: lunch and break times for pupils with social/interaction impairments, after-school clubs for pupils with physical impairments, school trips for pupils with medical needs.

Information

Different forms of communication are made available as needs are identified to enable all disabled pupils to express their views and to hear the views of others. Access to information is provided in a range of different formats available for disabled pupils, parents and staff as needed.

Access Audit

The school building is in good condition and has had a recent extension to the front of the building that provides good accessibility and includes a disabled toilet. The remainder of the site includes some access challenges particularly with regard to accessing the main playground.

There is one building, on one storey, housing EYFS through to KS2 children. All entrances into the classrooms are via the playground. Fire doors on the corridors are fitted with door guards so that they close automatically once the fire alarm is set off.

On-site car parking is available for staff and visitors and the school and the number of car parking spaces was increased in 2020. There are disabled toilet facilities available in the reception area and another larger disabled toilet, including changing facilities, adjacent to the dining room. There is also a disabled

toilet in the neighbouring English Hub building. The school has internal emergency signage and escape routes are clearly marked. **Management,**

coordination and implementation and review

- We consult with other professionals and services when new situations regarding pupils with disabilities are experienced.
- The Governors and Senior Leadership Team work closely with the Local Authority/ENGIE
- We work closely with parents to consider their children's needs.

Complaints

The school works, wherever possible, in partnership with parents to ensure a collaborative approach to meeting pupils' needs. If there are any complaints relating to the provision for pupils with access needs these will be dealt with in the first instance by the Head of School. The SEND Governor or Chair of Governors may be involved if the complaint is not resolved satisfactorily.

Action Plan

Aim 1: To increase the extent to which disabled pupils can participate in the school curriculum.

Our key objective is to reduce and eliminate barriers to access to the curriculum and to ensure full participation in the school community for pupils, and prospective pupils, with a disability, medical condition or other access needs.

Targets	Strategies	Timescale	Responsibilities	Success Criteria
To liaise with pre-school providers to prepare for the new intake of children into Foundation Stage each year	To identify pupils who may need adapted or additional provision	Summer Term annually	Assistant HT/SENDCo EYFS Lead/teachers	Provision in place ready for when the child/ren starts school
To liaise with educational	To identify pupils who may need adapted or additional provision	Ongoing as need arises	HT Assistant HT/SENDCo	Provision set in place ready for when the child/ren

establishments to prepare for the intake of new children who transfer within year				start school
To review all policies to ensure that they reflect inclusive practice and procedure	To comply with the Equality Act 2010	Ongoing	HT SLT Curriculum Teams	All policies clearly reflect inclusive practice and procedure
