

E Safety Policy

Status	Approved
Date Approved	September 2026
Review Date	September 2027
Head Teacher	Miss S French
Chair of Governors	Mr J Dunmore

Statutory policies are approved and ratified by the Governing Body and the approval of policies are recorded within the minutes of the meetings.

Introduction

Holwell Primary school recognises that internet, mobile and digital technologies provide positive opportunities for children and young people to learn, socialise and play but they also need to understand the challenges and risks. The digital world is an amazing place, but with few rules. It is vast and fast moving and young people's future economic success may be partly dependent on their online skills and reputation. We are, therefore, committed to ensuring that **all** pupils, staff and governors will be supported to use The Internet, mobile and digital technologies safely. This is part of our safeguarding responsibility. Staff are aware that some pupils may require additional support or teaching, including reminders, prompts and further explanation to reinforce their knowledge and understanding of online safety issues.

We recognise the 4 main areas of risk and our approach to online safety is based on addressing these categories of risk.

- Content – being exposed to illegal, inappropriate or harmful content, such as pornography, misinformation, disinformation (including fake news), conspiracy theories, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism
- Contact – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes
- Conduct – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- Commerce – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

We are also committed to ensuring that all those who work with children and young people, including their parents/carers, are informed about the ever-changing risks so that they can take an active part in helping children and young people navigate the online world safely and confidently.

2. Legislation and guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

[Teaching online safety](#)

[Meeting digital and technology standards](#)

[Preventing and tackling bullying](#) and [cyber-bullying: advice for headteachers and school staff](#)

[\[Relationships and sex education \(RSE\) and health education\]](#) – remove if not applicable, see section 4]

[Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

The policy also takes into account the National Curriculum computing programmes of study.

Responsibilities

The governing board

The governing board has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The governing board will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The governing board will co-ordinate regular meetings with appropriate staff to discuss online safety, requirements for training, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The governing board should ensure children are taught how to keep themselves and others safe, including keeping safe online.

The governing board will make sure that the school has appropriate filtering and monitoring systems in place on school devices and school networks, and will regularly review their effectiveness. The board will review the DfE's filtering and monitoring standards, and discuss with IT staff and service providers what needs to be done to support the school in meeting the standards, which include:

- Identifying and assigning roles and responsibilities to manage filtering and monitoring systems;
- Reviewing filtering and monitoring provisions at least annually;
- Blocking harmful and inappropriate content without unreasonably impacting teaching and learning;
- Having effective monitoring strategies in place that meet their safeguarding needs.

The governor who oversees online safety is A. Arnold

All governors will:

- Ensure they have read and understand this policy
- Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 3)
- Ensure that online safety is a running and interrelated theme while devising and implementing their whole-school or college approach to safeguarding and related policies and/or procedures
- Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

The named online safety lead in this school is the Designated Safeguarding Lead supported by the Pastoral Deputy Headteacher and Assistant Pastoral Lead

The headteacher

The headteacher is responsible for making sure that staff understand this policy, and that it is being implemented consistently throughout the school.

The designated safeguarding lead (DSL)

Details of the school's designated safeguarding lead (DSL) [and deputy/deputies] are set out in our child protection and safeguarding policy, as well as relevant job descriptions.

The DSL takes lead responsibility for online safety in school, in particular:

Supporting the headteacher in making sure that staff understand this policy and that it is being implemented consistently throughout the school

Working with the headteacher and governing board to review this policy [annually] and make sure the procedures and implementation are updated and reviewed regularly

Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks

Providing governors with assurance that filtering and monitoring systems are working effectively and reviewed regularly

Working with the ICT manager to make sure the appropriate systems and processes are in place

Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents

Managing all online safety issues and incidents in line with the school's child protection policy

Responding to safeguarding concerns identified by filtering and monitoring

Making sure that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy

Making sure that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy

Updating and delivering staff training on online safety (appendix 4 contains a self-audit for staff on online safety training needs)

Liaising with other agencies and/or external services if necessary

Providing regular reports on online safety in school to the headteacher and/or governing board

Undertaking annual risk assessments that consider and reflect the risks pupils face

Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively

This list is not intended to be exhaustive.

The ICT manager

The ICT manager is responsible for:

Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and make sure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material

Making sure that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly

Conducting a full security check and monitoring the school's ICT systems on a [weekly/fortnightly/monthly] basis

Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files

Making sure that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy

Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy

This list is not intended to be exhaustive.

All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

Maintaining an understanding of this policy

Implementing this policy consistently

Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 3), and making sure that pupils follow the school's terms on acceptable use (appendices 1 and 2)

Knowing that the DSL is responsible for the filtering and monitoring systems and processes, and being aware of how to report any incidents of those systems or processes failing.

Working with the DSL to make sure that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy

Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy

Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline, and maintaining an attitude of 'it could happen here'

This list is not intended to be exhaustive.

Parents/carers

Parents/carers are expected to:

Notify a member of staff or the headteacher of any concerns or queries regarding this policy

Make sure that their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendices 1 and 2)

Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:

What are the issues? – [UK Safer Internet Centre](#)

Help and advice for parents/carers – [Childnet](#)

Parents and carers resource sheet – [Childnet](#)

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 3).

All breaches of this policy that may have put a child at risk must also be reported to the DSL and Head teacher.

Organisations that are renting space from the school and are a totally separate organisation should have and follow their own online safety policy and acceptable use agreements. However, if the organisation has any access to the school network, cloud-based services and/or equipment then they must adhere to the school's online safety procedures and acceptable use agreements.

If the organisation is operating in school time or when pupils are on site in the care of the school, then the safeguarding of pupils is paramount and the organisation must adhere to the school's online safety procedures and acceptable use agreements.

All breaches of this policy must be reported to the **Business Manager and Head teacher**.

Educating pupils about online safety

4.1 Pupils will be taught about online safety as part of the curriculum

The text below is taken from the [National Curriculum computing programmes of study](#) and the government's [guidance on relationships education, relationships and sex education \(RSE\) and health education \(for introduction 1 September 2026\)](#).

All schools have to teach:

[Relationships education and health education](#) in primary schools

[Relationships and sex education and health education](#) in secondary schools

In **Key Stage (KS) 1**, pupils will be taught to:

Use technology safely and respectfully, keeping personal information private

Identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies

Pupils in **Key Stage (KS) 2** will be taught to:

Use technology safely, respectfully and responsibly

Recognise acceptable and unacceptable behaviour

Identify a range of ways to report concerns about content and contact

Be discerning in evaluating digital content

By the **end of primary school**, pupils will know:

That people should be respectful in online interactions, and that the same principles apply to online relationships as to face-to-face relationships, including where people are anonymous. For example, the importance of avoiding putting pressure on others to share information and images online, and strategies for resisting peer pressure

How to critically evaluate their online relationships and sources of information, including awareness of the risks associated with people they have never met. For example, that people sometimes behave differently

online, including pretending to be someone else, or pretending to be a child, and that this can lead to dangerous situations. How to recognise harmful content or harmful contact, and how to report this

That there is a minimum age for joining social media sites (currently 13), which protects children from inappropriate content or unsafe contact with older social media users, who may be strangers, including other children and adults

The importance of exercising caution about sharing any information about themselves online.
Understanding the importance of privacy and location settings to protect information online

Online risks, including that any material provided online might be circulated, and that once a picture or words has been circulated there is no way of deleting it everywhere and no control over where it ends up

That the internet contains a lot of content that can be inappropriate and upsetting for children, and where to go for advice and support when they feel worried or concerned about something they have seen or engaged with online

The safe use of social media and the internet will also be covered in other subjects where relevant.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

Pupils will be taught practical cyber security skills

The following items come from the DfE's [non-statutory cyber security standards for schools and colleges](#).

All pupils will receive age-appropriate training on safe internet use, including:

Methods that hackers use to trick people into disclosing personal information

Password security

Social engineering

The risks of removable storage devices (e.g. USBs)

Multi-factor authentication

How to report a cyber incident or attack

How to report a personal data breach

Pupils will also receive age-appropriate education on safeguarding issues such as cyberbullying and the risks of online radicalisation.

Educating parents/carers about online safety

The school will raise parents/carers' awareness of internet safety in letters or other communications home, and in information via our website. This policy will also be shared with parents/carers.

Online safety will also be covered during parents' evenings.

The school will let parents/carers know:

What systems the school uses to filter and monitor online use

What their children are being asked to do online, including the sites they will be asked to access and who from the school (if anyone) their child will be interacting with online

If parents/carers have any queries or concerns in relation to online safety, these should be raised in the first instance with the headteacher and/or the DSL.

Concerns or queries about this policy can be raised with any member of staff or the headteacher.

Cyber-bullying

Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and encourage them to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Class teachers will discuss cyber-bullying with their classes

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes Relationship, social, health and economic (RSHE) education, and other subjects where appropriate.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training.

The school also sends information/leaflets on cyber-bullying to parents/carers so they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

Examining electronic devices

The headteacher, Deputy Headteacher (Pastoral), Business Manager and DSL can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:

Poses a risk to staff or pupils, and/or

Is identified in the school rules as a banned item for which a search can be carried out, and/or

Is evidence in relation to an offence

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

Make an assessment of how urgent the search is, consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from the headteacher.

Explain to the pupil why they are being searched, and how the search will happen; and give them the opportunity to ask questions about it

Seek the pupil's co-operation

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:

Cause harm, and/or

Undermine the safe environment of the school or disrupt teaching, and/or

Commit an offence

If inappropriate material is found on the device, it is up to [the staff member in conjunction with the DSL / headteacher / other member of the senior leadership team] to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding whether there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

They reasonably suspect that its continued existence is likely to cause harm to any person, and/or

The pupil and/or the parent/carer refuses to delete the material themselves

If a staff member **suspects** a device **may** contain an indecent image of a child (also known as a nude or semi-nude image), they will:

Not view the image

Confiscate the device and report the incident to the DSL (or equivalent) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [screening, searching and confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any searching of pupils will be carried out in line with:

The DfE's latest guidance on [searching, screening and confiscation](#)

UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Our behaviour policy / searches and confiscation policy

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

Artificial intelligence (AI)

Generative AI tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Gemini and Microsoft Co-Pilot.

Holwell Primary School recognises that AI has many uses to help pupils learn, but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real. This includes deepfake pornography: pornographic content created using AI to include someone's likeness.

Holwell Primary School will treat any use of AI to bully pupils very seriously, in line with our Behaviour Policy.

Staff should be aware of the risks of using AI tools while they are still being developed and should carry out a risk assessment where new AI tools are being used by the school/trust, and where existing AI tools are used in cases which may pose a risk to all individuals that may be affected by them, including, but not limited to, pupils and staff. See the Holwell AI policy for more guidance on the use of AI at Holwell.

Acceptable use of the internet in school

All pupils, parents/carers, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 1 to 3). Visitors will be expected to read and agree to the school's terms on acceptable use, if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

More information is set out in the acceptable use agreements in appendices 1 to 3.

Staff using work devices outside school

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

Keeping the device password-protected – strong passwords can be made up of [3 random words](#), in combination with numbers and special characters if required, or generated by a password manager

Working via The Cloud and ensuring that no data is held on the hard drive, this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device

Making sure the device locks if left inactive for a period of time

Not sharing the device among family or friends

Keeping operating systems up to date by promptly installing the latest updates

Staff members must not use the device in any way that would violate the school's terms of acceptable use.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice the Business Manager and ICT manager.

How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our policies on behaviour and ICT and internet acceptable use. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the Internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the [staff disciplinary procedures / staff code of conduct]. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

Training for staff, governors and volunteers

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse

Children can abuse their peers online through:

Abusive, threatening, harassing and misogynistic messages

Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups

Sharing of abusive images and pornography, to those who don't want to receive such content

Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

Develop better awareness to assist in spotting the signs and symptoms of online abuse

Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks

Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL and deputies will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

Storing of images

Photographs and videos provide valuable evidence of pupils' achievement and progress in a variety of contexts and can be used to celebrate the work of the school. In line with GDPR they are used only with the written consent of parents/carers which is secured in the first instance on a child's entry to the school.

Records are kept on file and consent can be changed by parents/carers at any time. (See GDPR policy for greater clarification).

Photographs and images of pupils are only stored on the school's agreed secure networks which include some cloud based services. Rights of access to stored images are restricted to approved staff as determined by the headteacher. Staff and pupils may have temporary access to photographs taken during a class session, but these will be transferred/deleted annually.

Parents/carers should note that there may be some children who are at risk and must not have their image put online and others who do not want their image online. For these reasons parents/carers must follow the school's Acceptable Use Agreement and refrain from taking or posting online photographs of any member of the school community, other than their own child/ren. Staff and other professionals working with pupils, must only use school equipment to record images of pupils whether on or off site. See also GDPR. Permission to use images of all staff who work at the school is sought on induction and a record is located in the personnel file.

Monitoring arrangements

Teachers and DSLs logs behaviour and safeguarding issues related to online safety in CPOMS.

This policy will be reviewed annually by the DSL and Deputy Headteacher Pastoral. At every review, the policy will be shared with the governing board. The review will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

Use of personal mobiles

The school allows staff, including temporary and peripatetic staff, and visitors to use personal mobile phones and devices only in designated areas and never in the presence of pupils. Under no circumstance does the school allow a member of staff to contact a pupil or parent/carer using their personal device unless permission is given by the Head teacher to conduct school business within lockdown or similar situation, withholding the phone number and talking with the parents/carers first.

Parents/carers may only use personal mobile phones and devices in designated areas unless otherwise informed, e.g. for specific events and activities. Under no circumstance should images be taken at any time on school premises or on off-site school events and activities of any child, unless there is a pre-specified permission from the Head teacher. When a parent/carer is on school premises but not in a designated area, their phone/s must be switched off and out of sight.

Pupils in Years 5 and 6 who are able to walk to and from school alone have permission to bring a mobile phone to school. These will be collected by the class teacher on arrival to school and given back at the end of the school day.

Camera watches are not to be worn at school. If a child has a camera watch they will be asked to give it to the class teacher during the school day and it will be returned to parents at the end of the school day.

The school is not responsible for the loss, damage or theft of any personal mobile device that is brought into school.

Users bringing personal devices into school must ensure there is no inappropriate or illegal content on the device.

Links with other policies

This online safety policy is linked to our:

- Child protection and safeguarding policy
- Behaviour policy
- Staff disciplinary procedures
- Data protection policy and privacy notices
- Complaints procedure
- ICT and internet acceptable use policy
- AI Policy
- RSHE Policy

Appendices of the Online Safety Policy

Online Safety Acceptable Use Agreement - Staff, Governors and student teachers (on placement or on staff)

Online Safety Acceptable Use Agreement - Peripatetic teachers/coaches, supply teachers

Requirements for visitors, volunteers and parent/carers helpers working in the school (working directly with children or otherwise)

Online Safety Acceptable Use Agreement Primary Pupils

Online safety policy guide - Summary of key parent/carers responsibilities

Guidance on the process for responding to cyberbullying incidents

Guidance for staff on preventing and responding to negative comments on social media

Appendix A - Online Safety Acceptable Use Agreement - Staff, Governors and student teachers (on placement or on staff)

You must read this agreement in conjunction with the online safety policy and the GDPR policy. Once you have read these, you must sign and submit this agreement and it will be kept on record in the school. You should retain your own copy for reference. This forms part of your professional and safeguarding responsibilities.

Internet, mobile and digital technologies are part of our daily working life and this agreement is designed to ensure that all staff and governors are aware of their responsibilities in relation to their use. All staff, student teachers and governors are expected to adhere to this agreement and to the online safety policy. Any concerns or clarification should be discussed with Business Manager or Headteacher. Breaches will be investigated, recorded and, where appropriate, disciplinary procedures will apply and police involvement will be sought.

Internet Access

I will not access or attempt to access any sites that contain any of the following: child abuse; pornography; discrimination of any kind; promotion of prejudice against any group; promotion of illegal acts; any other information which may be illegal or offensive. Inadvertent access on school equipment must be treated as an online safety incident, reported to the online safety lead and/or DSP and an incident report completed.

Online conduct

I will ensure that my online activity, both in and outside school, will not bring the school, my professional reputation, or that of others, into disrepute.

I will not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory. Exceptionally, use of controversial material as part of the curriculum should be planned and approved on every occasion (see policy).

I will report any accidental access to or receipt of inappropriate materials or filtering breach to Business Manager or headteacher.

I understand that all my use of the internet and other related technologies can be traced and monitored and, should it be required, must be made available to my line manager, headteacher and others as required.

I will not give out my personal contact and online account information such as phone numbers, email address, and social media account details to pupils and/or parents/carers.

Social networking

I understand the need to separate my professional role from my private friendships; in my professional capacity I will not become 'friends' with parents/carers or pupils on social networks. Where my school role is my only connection to an individual, private online contact is unacceptable with parents/carers or pupils. This includes ex-pupils who are also known to be 'vulnerable' young people up to the age of 25.

When using social networking for personal use I will ensure my settings are not public. My private account postings will never undermine or disparage the school, its staff, governors, parents/carers or pupils. Privileged information must remain confidential.

I will not upload any material about or references to the school or its community on my personal social

networks.

Passwords

I understand that there is no occasion when a password should be shared with a pupil or anyone who is not a staff member.

Data protection

I will follow requirements for data protection as outlined in GDPR policy. These include:

- Photographs must be kept securely and used appropriately, whether in school, taken off the school premises or accessed remotely
- Personal data can only be taken out of school or accessed remotely when authorised by the headteacher or governing body
- Personal or sensitive data taken off site must be encrypted

Images and videos

I will only upload images or videos of staff, pupils or parents/carers onto school approved sites where specific permission has been granted.

I will not take images, sound recordings or videos of school events or activities on any personal device.

Use of email

I will use my school email address or governor hub for all school business. All such correspondence must be kept professional and is open to Subject Access Requests under the Freedom of Information Act. I will not use my school email addresses or governor hub for personal matters or non-school business.

Use of personal devices

I understand that as a member of staff I should at no time put myself in a position where a safeguarding allegation can be made against me as a result of my use of personal devices. I understand that the use of personal devices in school is at the discretion of the headteacher.

I will only use approved personal devices in designated areas and never in front of pupils.

I will not access secure school information from personal devices when in school or any other location unless a closed, monitorable system has been set up by the school. Such a system would ensure as the user I was not saving files locally to my own device and breaching data security

A 'monitorable system' would be one such as LARA. Through LARA, any school documents accessed on a personal device are never actually on the computer being used, they remain on the school server. When the user logs-out of LARA, there are no copies left on their own device.

Additional hardware/software

I will not install any hardware or software on school equipment without permission of Computing Curriculum Leader or Business Manager.

Promoting online safety

I understand that online safety is the responsibility of all staff and governors and I will promote positive online safety messages at all times including when setting homework or providing pastoral support.

I understand that it is my duty to support a whole school safeguarding approach and will report any inappropriate or concerning behaviour (of other staff, governors, visitors, pupils or parents/carers) to the DSP or headteacher.

Classroom management of internet access

I will pre-check for appropriateness all internet sites used in the classroom this will include the acceptability of other material visible, however briefly, on the site. I will not free-surf the internet in front of pupils. I will also check the appropriacy of any suggested sites suggested for home learning.

If I am using the internet to teach about controversial issues I will secure, on every occasion, approval in advance for the material I plan to use with headteacher.

Video conferencing

I will only use the conferencing tools that have been identified and risk assessed by the school leadership. A school-owned device should be used when running video-conferences.

User signature

I agree to follow this Acceptable Use Agreement and to support online safety throughout the school. I understand this forms part of the terms and conditions set out in my contract of employment (staff members only) and/or my responsibilities as a governor.

I understand that my computer/ device usage and internet usage is monitored.

Job title

Appendix B - Online Safety Acceptable Use Agreement - Peripatetic teachers/coaches, supply teachers

Holwell Primary School

This agreement forms part of your professional and safeguarding responsibility in the school. You must read and sign this agreement. This will be kept on record and you should retain your own copy for reference.

Internet, mobile and digital technologies are part of our daily working life and this agreement is designed to ensure that all staff and governors are aware of their responsibilities in relation to their use. You are expected to adhere to this agreement. **Any concerns or clarification should be discussed with Business Manager or Headteacher.** School systems and hardware are routinely monitored. Breaches will be investigated, recorded and, where appropriate, disciplinary procedures will apply and police involvement will be sought.

The school's online safety policy will provide further detailed information as required.

Internet Access

I will not access or attempt to access any sites that contain any of the following: child abuse; pornography; discrimination of any kind; promotion of prejudice against any group; promotion of illegal acts; any other information which may be illegal or offensive. Inadvertent access on school equipment must be treated as an online safety incident, reported to the online safety lead and/or DSP and an incident report completed.

Online conduct

I will ensure that my online activity, both in and outside school, will not bring the school, my professional reputation, or that of others, into disrepute.

I will not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory. Exceptionally, use of controversial material as part of the curriculum should be planned and approved on every occasion (see policy).

I will report any accidental access to or receipt of inappropriate materials or filtering breach to the Business Manager.

I understand that all my use of the internet and other related technologies can be traced and monitored and, should it be required, must be made available to my line manager, headteacher and others as required.

I will not give out my personal contact and online account information such as phone numbers, email address, and social media account details to pupils and/or parents/carers.

Should I need to share my professional details, such as mobile phone number or email address, with parent/carers, this must be agreed in advance as an acceptable approach with the headteacher.

Social networking

I understand the need to separate my professional role from my private friendships; in my professional capacity I will not become 'friends' with parents/carers or pupils on social networks. Where my school role is my only connection to an individual, private online contact is unacceptable with parents/carers or pupils. This includes ex-pupils who are also known to be 'vulnerable' young people up to the age of 25.

Information can be shared with pupils over 13 and parents/carers through an organisational social network site/page e.g. on Facebook or Twitter, but never through a personal account or site. In my professional role

in the school, I will never engage in 1-1 exchanges with pupils or parent/carers on personal social network sites.

My private account postings will never undermine or disparage the school, its staff, governors, parents/carers or pupils. Privileged information known as a result of my work in the school must remain confidential.

I will not upload any material about or references to the school or its community on my personal social networks.

Passwords

Passwords are private and for personal use. They must not be shared with anyone.

Data protection

I will follow all requirements for data protection explained to me by the school and contained within the school's GDPR policies.

Images and videos

I will only upload images or videos of staff, pupils or parents/carers onto school approved sites where specific permission has been granted.

I will not take images, sound recordings or videos of tuition or wider school activities on any personal device. School devices can be used for this purpose or, in the case of 1:1 tuition, pupil's or parent/carer devices can be used, with parent/carer agreement.

Internet, mobile and digital technologies provide helpful recording functions but these cannot be made on a teacher's personal device. Recordings can be made with the child's and parent/carer's agreement on a school device, an organisational device approved by the headteacher/DSP, or a young person's or parent/carer's own device.

Use of Email

I will only use my professional email address for all school business. All such correspondence should be kept professional and is open to Subject Access Requests under the Freedom of Information Act. I will not use my professional email addresses for personal matters.

Use of personal devices

I understand that when working in the school I should at no time put myself in a position where a safeguarding allegation can be made against me as a result of my use of personal devices. I will only use a personal device in designated areas and never in front of pupils.

Additional hardware/software

I will not install any hardware or software on school equipment without permission of the Business Manager.

Promoting online safety

I understand that online safety is part of my responsibility and I will promote positive online safety messages at all times, including when setting homework, rehearsal or skill practice or when providing pastoral support.

I understand that it is my duty to support a whole school safeguarding approach and will report any behaviour (of staff, governors, visitors, pupils or parents/carers) which I believe may be inappropriate or concerning in any way to the DSP or headteacher.

Classroom management of internet access

I will pre-check for appropriateness all internet sites used with children this will include the acceptability of other material visible, however briefly, on the site. I will not free-surf the internet in front of pupils.

If I am using the internet to teach about controversial issues I will secure, on every occasion, approval in advance for the material I plan to use with the headteacher or Deputy Headteacher.

Video conferencing

I will only video conference through the school's secure Google Classroom or Microsoft Teams. The use of any other video conferencing tool must be pre-authorised by the Senior Leadership Team. The use of video conferencing with children must always be agreed by the Senior Leadership Team. A school-owned device must be used when running video-conferences.

User Signature

I agree to follow this Acceptable Use Agreement and to support online safety in my work in the school. I understand this forms part of my company/educational setting/organisation's contract with the school.

Signature Date

Full Name (Please use block capitals)

Job Title/Role

Appendix C - Requirements for visitors, volunteers and parent/carers helpers
(Working directly with children or otherwise)

Holwell Primary School

This document is designed to ensure that you are aware of your responsibilities when using any form of IT in the school and other aspects of safeguarding in connection with online safety.

Please raise any safeguarding concerns arising from your visit immediately with the headteacher and/or DSL.

- I understand I may only use my personal mobile phone(s) and other devices with camera functions in designated areas. If you need to use your personal mobile phone, please check with a member of staff where a suitable designated area is. When not in a designated area, phones must be switched off and out of sight.
- I will not take images, sound recording or videos of school events or activities, on or off site, on any device. Any possible exception must be pre-arranged and agreed by the Senior Leadership Team.
- I will not give out my personal details such as mobile phone number, email address, and social media account details to pupils. Where appropriate I may share my professional contact details with parents/carers.
- I understand my visit to the school may give me access to privileged information about pupils, staff, school systems and plans. Such information is confidential and should not be shared outside of the school.
- I understand I should not use school equipment to access the internet without prior approval from my contact in the school or the headteacher.
- If working in the classroom, I will work with the Class Teacher to pre-check for appropriateness all internet sites. I intend to use including checking the acceptability of other material visible on the site. I will not free-surf the internet in front of pupils. If I am in any doubt about the appropriateness of the content I plan to use I will check with my contact in the school.

Online Safety Acceptable Use Agreement Primary Pupils

My online safety rules

- I will only use school IT equipment for activities agreed by school staff.
- I will not use my personal email address or other personal accounts in school when doing school work.
- I will not sign up for any online service on school devices unless this is an agreed part of a school project approved by my teacher.
- I will only open email attachments unless it has been approved by a member of school staff in school or a parent/carer out of school.
- In school I will only open or delete my files when told by a member of staff.
- I will not tell anyone other than my parents/carers my passwords. I will not use other people's usernames or passwords to pretend to be them online.
- I will make sure that all online contact that I make is responsible, polite and sensible. I will be kind and respectful at all times.
- If I come across anything upsetting, unpleasant or nasty, or anything that makes me feel unsafe, I will tell my teacher or my parent/carer immediately.
- If someone says, asks or posts about me anything upsetting, unpleasant or nasty, or anything that makes me feel unsafe, I will not reply. I will tell my teacher or my parent/carer immediately.
- I will not give out my own or others' personal information, including: name, phone number, home address, interests, schools or clubs or any personal image. I will let my teacher or parent/carer if anyone asks me online for personal information.
- I understand that some people on the internet are not who they say they are and some people are not safe to be in contact with. I will not arrange to meet someone I only know on the internet. If someone asks to meet me, I will not reply to them and I will tell a teacher or a parent/carer immediately.
- Uploading or sending my image (photographs, videos, live streaming) online puts me at risk. I will always seek permission from my teacher or parent/carer if I wish to do this. I will not take, share or upload any image of anyone else without their permission and also, if they are a child, without their parents'/carers' permission.
- Even if I have permission, I will not upload any images, videos, sounds or words that could upset, now or in the future, any member of the school community, as this is cyberbullying.
- I understand that everything I do or receive online can be traced now and in the future. I know it is important to build a good online reputation.
- I understand that some personal devices are allowed in school and some are not, and I will follow the rules.
- I will not assume that new devices can be brought into school without getting permission.
- I will not lie about my age in order to access games, apps or social networks that are for older people as this will put me at risk.

- I understand that these rules are designed to keep me safe now and in the future. If I break the rules my teachers will look into it and may need to take action.

Dear Parent/Carer,

The internet, email, mobile technologies and online resources have become an important part of learning and life. We want all pupils to be safe and responsible when using any IT. It is essential that pupils are aware of online risk, know how to stay safe and know where to go to report problems or to get help. Please read through these online safety rules, attached, with your child and talk with them to ensure they understand their importance and what it means for them (and for you). Any concerns or explanation can be discussed with Miss French.

Pupil agreement

This agreement is to keep me safe. I have discussed this agreement with my parents/carers and understand the commitment I have made and my responsibilities.

Parent/s Carer/s agreement

I/we have discussed this agreement, which highlights the associated risks when accessing the internet, mobile and digital technologies, with our child. I/we agree to support them in following the terms of this agreement.

I/we also agree not share school related information or images online or post material that may bring the school or any individual within it into disrepute.

(Rather than posting negative material online, any parent, distressed or concerned about an aspect of school should make immediate contact with a member of staff. Negative postings about the school would impact on the reputation of the whole school community. Parents are encouraged to report breaches so that we can protect the reputation of the school, staff, pupils and parents.)

I/we also agree only to use personal mobile phones and devices in designated areas of the school unless otherwise informed, e.g. for specific events and activities. I/we understand that under no circumstance should images be taken at any time on school premises of anyone other than our own child/ren, unless there is a pre-specified agreement. I/we understand that when on school premises, but not in a designated area where phones can be used, they must be switched off and out of sight.

Yours sincerely

Miss S G French

Head Teacher

Appendix F - Online safety policy guide - Summary of key parent/carers responsibilities

(to be displayed on school website)

The school provides online safety information for parents/carers, through the website, email, social media and at events. It is important that parents/carers understand their key role in supporting children to behave appropriately and keep themselves safe online.

The online safety policy, supported by its acceptable use agreements, is intended to protect the interests and safety of the whole school community.

- Parents/carers are required to support their child in understanding the Online Safety Acceptable Use Agreement for pupils.
- Parents/carers must not use personal mobile phones on school grounds unless at a pre-agreed event.
- Parents/carers should not assume that pupils can bring technological devices to school and should always check the school policy.
- All cyberbullying incidents affecting children in the school should be reported immediately. (If the incident involves an indecent image of a child the report must also be made immediately to the police.) The school will investigate and respond to all reported cyberbullying incidents, liaising with others where appropriate. No reply should ever be sent to the sender/poster of cyberbullying content. If applicable block the sender and report abuse to the site. Evidence should be retained and shown in school and/or to the police. Evidence should not be forwarded.
- The school may choose to set up social media sites, blogs or have some other online presence in its own name. Parents/carers, however, do not have the right to set up any site, page, chat group or any other online presence that uses the school name or logo in any form.
- Any parent/carers, distressed or concerned about an aspect of school should make immediate contact with a member of staff rather than posting their concerns online. Parents/carers should not share school related information or images online or post material that may bring the school or any individual within it into disrepute. Negative postings about the school would impact on the reputation of the whole school community. Parents/carers are encouraged to report breaches so that we can protect the reputation of the school, staff, pupils and parents/carers.

Please see the full online safety policy in the policies section on the school website.

Appendix G - Guidance on the process for responding to cyberbullying incidents

(to be displayed on school website)

All cyberbullying incidents should be reported and responded to. Where the perpetrator is a member of the school community the majority of cases can be dealt with through the school.

The following procedures are recommended:

- Never reply to the sender/poster of cyberbullying content. If applicable, block the sender.
- Incidents should be reported immediately. Pupils should report to a member of staff (e.g. class teacher, headteacher) and staff members should seek support from their line manager or a senior member of staff.
- The person reporting the cyberbullying should save the evidence and record the time and date. This evidence must not be forwarded but must be available to show at a meeting. Under no circumstances should indecent images of children and young people be printed or forwarded as this is a further criminal act. Staff should not ask to see the evidence of reported indecent images of children or young people but must refer this immediately to the police. Any member of staff being shown such evidence should immediately inform their line manager or the headteacher so that the circumstances can be recorded.
- A senior member of staff will meet with the person who has reported the incident and the target, if different, to listen, reassure and support. All relevant facts will be reviewed and documented.
- A senior member of staff will conduct an investigation.
- Anyone found to have cyberbullied will have attention drawn to the seriousness of their behaviour and if necessary the police will be involved. If the comments are threatening, abusive, sexist, of a sexual nature, constitute a hate crime or are libellous they may well break the law. Online harassment and stalking is also a crime.
- Once evidence has been secured then the person who has cyberbullied will be requested to remove the offending comments/material. Any refusal will lead to an escalation of sanctions.
- Contact the school office if concerned.

Guidance for staff on preventing and responding to negative comments on social media

The school should make it clear which, if any, social media platforms are used to communicate with parents/carers. If used correctly, parents can use a school's social media site as a source of reliable information. The online safety policy, see especially Appendix F (Online safety policy guide - Summary of key parent/carer responsibilities), clarifies that no other social media platforms should be set up using the school's name or logo.

The school should regularly reinforce with all parties that discussion of school issues on social media platforms, either positive or negative, should not take place as this could bring the school into disrepute and affect families and children. Parents should be encouraged to be good online role models and not post statements written in anger or frustration. Identified routes to raise concerns directly with the school should be used.

If negative comments are posted:

- **Collect the facts**

As soon as you become aware of adverse comments relating to the school you need to establish what is being said. It is essential that if you have access to the postings they are secured and retained together with any other evidence. Do not become engaged in responding directly.

If the allegations against a member of staff or a pupil are of a serious nature, these will need to be formally investigated. This may involve the police and the headteacher will need to follow the school's safeguarding procedures.

If there is a risk of serious damage to the school reputation or the reputation of individual members of staff, professional legal advice should be sought.

Adverse comments of any kind are highly demotivating and cause stress and anxiety. It is important that the senior staff reassure and support all staff and/or other affected members of the school community.

- **Addressing negative comments and complaints**

Contact the complainants and invite them to a meeting. In the meeting, make sure you have any evidence available.

The meeting must:

- Draw attention to the seriousness and impact of the actions/postings;
- Ask for the offending remarks to be removed;
- Explore the complainant's grievance;
- Agree next steps;
- Clarify the correct complaints procedures.

If the meeting does not resolve the issue, the parents must be informed that the school will need to take the matter further. This may include:

- Reporting the matter to the social network site if it breaches their rules or breaks the law;
- Reporting the matter to the police if it breaks the law, e.g. if the comments are threatening, abusive, malicious, sexist, of a sexual nature, constitute a hate crime or are libellous they may well break the law. Online harassment and stalking is also a crime.

If inappropriate postings continue or the original material is not removed, a second meeting is advisable to re-iterate the seriousness of the matter.
