Contribution for Design and Technology Projects – KS4

Dear Parent/Carer,

At Calder High School, we are proud to offer a creative and technical Design and Technology curriculum at Key Stage 4. This course equips students with essential practical skills and knowledge, preparing them for both further study and future employment in the sector.

To support the delivery of high-quality practical lessons and ensure students have access to the necessary resources, we kindly request a voluntary contribution of **£10 per child** for the academic year. This contribution will help cover the cost of key consumables and specialist items, including:

- Materials (e.g. metals, timbers and polymers)
- Specialist adhesives and finishes
- Fasteners and fixings
- Other items for specific product outcomes (e.g. hardware, electronics)

Please make your donation via ParentPay by **Friday 7th November 2025**. If you are unable to contribute at this time or have any questions, please do not hesitate to contact us. We are happy to discuss any concerns you may have.

Thank you for your continued support in helping us deliver a robust and rewarding learning experience for your child. Should you wish to speak further, please contact me at school or via email at kgledhill@calderlearningtrust.com

Yours sincerely,

C Walker
