

Young Engineers LEGO® STEM Club (Year 1 to Year 6)

Dear Parents and Carers,

We're thrilled to announce an exciting addition to our after-school clubs: **Young Engineers**

Our weekly after-school club is perfect for children with a keen interest in **LEGO®, building, and discovering how things work**. Each term, children build a new LEGO® model every week, learning fascinating concepts in engineering, physics, and coding in a fun and hands-on way.

Why Choose Young Engineers ?

- **Hands-On Learning:** Build models and explore classical mechanics/coding.
- **Fun and Engaging:** Ignite curiosity through practical activities.
- **Foundation for the Future:** Prepare your child for STEM success.

Club Schedule:

- **Mondays – Year 1 to Year 3.** Lessons will begin on the **15th September 2025** with last lesson of the term on **15th December 2025** (3:15 PM to 4:30 PM). No lesson on Parents evening
- **Tuesdays – Year 4 to Year 6.** Lessons will begin on the **16th September 2025** with last lesson of the term on **16th December 2025** (3:15 PM to 4:30 PM).

Fee Details:

We're pleased to offer the first lesson free for all the students!

Each lesson costs **£12**, which will be **£132 for Monday lessons and £144 for Tuesday lessons for the autumn term**, which includes your child's first lesson completely free of charge. If you'd prefer to pay monthly, kindly reach out to us at basingstoke@young-engineers.co.uk.

To book your child's place, please visit our website and register using the link below:
