Online safety policy

Howe Park School and Nursery

Approved by:	Governors	Date: 18.11.25
Last reviewed on:	18.11.25	
Next review due by:	18.11.26	

Contents

1. Aims

Our school aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors

- Identify and support groups of pupils that are potentially at greater risk of harm online than others

- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')

- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, misinformation, disinformation (including fake news), conspiracy theories, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism

- **Contact** – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit the user for sexual, criminal, financial or other purposes

- **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and

- **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

2. Legislation and guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, Keeping Children Safe in Education, and its advice for schools on:

- Teaching online safety in schoolshttps://www.gov.uk/government/publications/preventing-and-tackling-bullying

- [Preventing and tackling bullying](#) and [cyber-bullying: advice for headteachers and school staff](#)

- [Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

The policy also takes into account the National Curriculum computing programmes of study.

3. Roles and responsibilities

3.1 The governing board

The governing board has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The governing board will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The governing board will also make sure all staff receive regular online safety updates (via email, e-bulletins and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The governing board will co-ordinate regular meetings with appropriate staff to discuss online safety and requirements for training, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The governing board will make sure that the school teaches pupils how to keep themselves and others safe, including online.

The governing board will make sure that the school has appropriate filtering and monitoring systems in place on school devices and school networks, and will regularly review their effectiveness. The board will review the [DfE's filtering and monitoring standards](#), and discuss with IT staff and service providers what needs to be done to support the school in meeting the standards, which include:

- Identifying and assigning roles and responsibilities to manage filtering and monitoring systems

- Reviewing filtering and monitoring provisions at least annually

- Blocking harmful and inappropriate content without unreasonably impacting teaching and learning

- Having effective monitoring strategies in place that meet the school's safeguarding needs

All governors will:

- Make sure they have read and understand this policy

- Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 1)

- Make sure that online safety is a running and interrelated theme when devising and implementing the whole-school or college approach to safeguarding and related policies and/or procedures

- Make sure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

3.2 The headteacher

The headteacher is responsible for making sure that staff understand this policy, and that it is being implemented consistently throughout the school.

3.3 The designated safeguarding lead (DSL)

Details of the school's designated safeguarding lead (DSL) and deputies are set out in our child protection and safeguarding policy, as well as relevant job descriptions.

The DSL takes lead responsibility for online safety in school, in particular:

- Supporting the headteacher in making sure that staff understand this policy and that it is being implemented consistently throughout the school

- Working with the headteacher and governing board to review this policy annually and make sure the procedures and implementation are updated and reviewed regularly

- Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks

- Providing governors with assurance that filtering and monitoring systems are working effectively and reviewed regularly

- Working with the ICT manager to make sure the appropriate systems and processes are in place

- Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents

- Managing all online safety issues and incidents in line with the school's child protection policy

- Responding to safeguarding concerns identified by filtering and monitoring

- Making sure that any online safety incidents are logged using CPOMS

- Making sure that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy

- Updating and delivering staff training on online safety

- Liaising with other agencies and/or external services if necessary

- Providing regular reports on online safety in school to the headteacher and/or governing board

- Undertaking annual risk assessments that consider and reflect the risks pupils face

- Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively

This list is not intended to be exhaustive.

3.4 The Headteacher

The headteacher works alongside Savvy IT and is responsible for:

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and make sure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material

- Making sure that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly

- Conducting a full security check and monitoring the school's ICT systems on a weekly basis

- Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files

- Making sure that any online safety incidents are logged using CPOMS and dealt with appropriately in line with this policy

- Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy

This list is not intended to be exhaustive.

3.5 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 1).
- As stated in the volunteer code of conduct, staff and volunteers will know that the DSL is responsible for the filtering and monitoring systems and processes, and being aware of how to report any incidents of those systems or processes failing.
- Working with the DSL to make sure that any online safety incidents are logged using CPOMS and dealt with appropriately in line with this policy
- Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy
- Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline, and maintaining an attitude of 'it could happen here'

This list is not intended to be exhaustive.

3.6 Parents/carers

Parents/carers are expected to:

- Notify a member of staff or the headteacher of any concerns or queries regarding this policy

Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:

- What are the issues? – UK Safer Internet Centre
- Help and advice for parents/carers – Childnet
- Parents and carers resource sheet – Childnet

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 1).

4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum.

All schools have to teach:

- Relationships education and health education in primary schools

In **Key Stage (KS) 1**, pupils will be taught to:

- Use technology safely and respectfully, keeping personal information private
- Identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies

The safe use of the internet will also be covered where relevant.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

5. Educating parents/carers about online safety

The school will raise parents/carers' awareness of internet safety in letters or other communications home, and in information via our website and our 'Wake up Wednesday' posts shared on our Facebook page. This policy will also be shared with parents/carers.

Online safety will also be covered during year group-based parent meetings at the beginning of the school year.

The school will let parents/carers know:

- What their children are being asked to do online, including the sites they will be asked to access and who from the school (if anyone) their child will be interacting with online

If parents/carers have any queries or concerns in relation to online safety, these should be raised in the first instance with the headteacher and/or the DSL.

Concerns or queries about this policy can be raised with any member of staff or the headteacher.

6. Cyber-bullying

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and encourage them to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. The topic of cyber bullying is addressed via an assembly and class discussions during anti-bullying week.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. Cyber-bullying will be included during some internet safety lessons which occur during every half term as part of the computing programme. Other lessons include personal, social, health and economic (PSHE) education, and sometimes other subjects where appropriate.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for more detail).

As part of the 'Wake up Wednesday' bulletin, Howe Park school also sends information/leaflets on cyber-bullying to parents/carers so they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

6.4 Artificial intelligence (AI)

Generative AI tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Gemini.

Howe Park School recognises that AI has many uses to help pupils learn, but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real. This includes deepfake pornography: pornographic content created using AI to include someone's likeness.

Howe Park school will treat any use of AI to bully pupils very seriously, in line with our behaviour policy.

Staff should be aware of the risks of using AI tools while they are still being developed and should carry out a risk assessment where new AI tools are being used by the school, and where existing AI tools are used in cases which may pose a risk to all individuals that may be affected by them, including, but not limited to, pupils and staff.

7. Acceptable use of the internet in school

All staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (Appendix 1). Visitors will be expected to read and agree to the school's terms on acceptable use, if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

9. Staff using work devices outside school

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected – strong passwords can be made up of 3 random words, in combination with numbers and special characters if required, or generated by a password manager

- Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device

- Making sure that devices are locked if left unattended

- Not sharing the device among family or friends

- Installing anti-virus and anti-spyware software

- Keeping operating systems up to date by promptly installing the latest updates

Staff members must not use the device in any way that would violate the school's terms of acceptable use, as set out in appendix 1.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from the computing subject leader.

10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our policies on behaviour and internet acceptable use. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff disciplinary procedures. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11. Training

11.1 Staff, governors and volunteers

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings). Teachers will also discuss appropriate actions to a hypothetical safeguarding situation at the end of a weekly staff meeting.

By way of this training, all staff will be made aware that:

- Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- Children can abuse their peers online through:
  - Abusive, threatening, harassing and misogynistic messages
  - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
  - Sharing of abusive images and pornography, to those who don't want to receive such content
- Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- Develop better awareness to assist in spotting the signs and symptoms of online abuse
- Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL and deputies will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

11.2 Pupils

All pupils will receive age-appropriate training on safe internet use, including:

- Methods that hackers use to trick people into disclosing personal information
- Password security
- Social engineering
- Who to talk to if they come across something distressing
- What to do if they come across something distressing

Pupils will also receive age-appropriate learning on safeguarding issues such as cyberbullying.

12. Monitoring arrangements

Any incidences relating to online safety will be recorded on CPOMS.

13. Links with other policies

This online safety policy is linked to our:

- Child protection and safeguarding policy
- Behaviour policy
- Staff disciplinary policy
- Data protection policy and privacy notices
- ICT and internet acceptable use policy

Appendix 1: acceptable use agreement (staff, governors, volunteers and visitors)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: **AGREEMENT FOR STAFF, GOVERNORS, VOLUNTEERS AND VISITORS**

Name of staff member/governor/volunteer/visitor:
When using the school's ICT systems and accessing the internet in school, or outside school on a work device (if applicable), I will not: • Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material) • Use them in any way that could harm the school's reputation • Access social networking sites or chat rooms • Use any improper language when communicating online, including in emails or other messaging services • Install any unauthorised software, or connect unauthorised hardware or devices to the school's network • Share my password with others or log in to the school's network using someone else's details • Take photographs of pupils without checking with teachers first • Share confidential information about the school, its pupils or staff, or other members of the community • Access, modify or share data I'm not authorised to access, modify or share • Promote private businesses, unless that business is directly related to the school
I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role. I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems. I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy. I will let the designated safeguarding lead (DSL) and ICT manager know if a pupil informs me they have found any material that might upset, distress or harm them or others, and will also do so if I encounter any such material. I will always use the school's ICT systems and internet responsibly, and ensure that pupils in my care do so too.

Signed (staff member/governor/volunteer/visitor):	**Date:**
