Appendix 4: online safety training needs – self-audit for staff.....	15

1. Aims

Our school aims to:

- > Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- > Identify and support groups of pupils that are potentially at greater risk of harm online than others
- > Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- > Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- > **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, misinformation, disinformation (including fake news), conspiracy theories, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism
- > **Contact** – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit the user for sexual, criminal, financial or other purposes
- > **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- > **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

2. Legislation and guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

- > [Teaching online safety](#)
- > [Meeting digital and technology standards](#)
- > [Preventing and tackling bullying and cyber-bullying: advice for headteachers and school staff](#)
- > [Relationships and sex education \(RSE\) and health education](#)
- > [Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

The policy also takes into account the National Curriculum computing programmes of study.

3. Roles and responsibilities

3.1 The governing board

The governing board has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The governing board will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The governing board will also make sure all staff receive regular online safety updates (via email, e-bulletins and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The governing board will co-ordinate regular meetings with appropriate staff to discuss online safety and requirements for training, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The governing board will make sure that the school teaches pupils how to keep themselves and others safe, including online.

The governing board will make sure that the school has appropriate filtering and monitoring systems in place on school devices and school networks, and will regularly review their effectiveness. The board will review the [DfE's filtering and monitoring standards](#), and discuss with IT staff and service providers what needs to be done to support the school in meeting the standards, which include:

- > Identifying and assigning roles and responsibilities to manage filtering and monitoring systems
- > Reviewing filtering and monitoring provisions at least annually
- > Blocking harmful and inappropriate content without unreasonably impacting teaching and learning
- > Having effective monitoring strategies in place that meet the school's safeguarding needs

All governors will:

- > Make sure they have read and understand this policy
- > Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 3)
- > Make sure that online safety is a running and interrelated theme when devising and implementing the whole-school or college approach to safeguarding and related policies and/or procedures
- > Make sure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

3.2 The headteacher

The headteacher is responsible for making sure that staff understand this policy, and that it is being implemented consistently throughout the school.

3.3 The designated safeguarding lead (DSL), deputy safeguarding lead (DDSL) and other

Details of the school's designated safeguarding lead (DSL) and deputies are set out in our safeguarding and child protection policy, as well as relevant job descriptions.

The DSL takes lead responsibility for online safety in school, in particular:

- > Supporting the headteacher in making sure that staff understand this policy and that it is being implemented consistently throughout the school
- > Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents
- > Managing all online safety issues and incidents, including any safeguarding concerns, in line with the school's Safeguarding and Child protection policy
- > Making sure that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school Good relationships and positive behaviour policy
- > Liaising with other agencies and/or external services if necessary
- > Providing regular reports on online safety in school to the headteacher and/or governing board
- > Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively

This list is not intended to be exhaustive.

3.4 The ICT manager (Schools ICT in liaison with the School Business Manager)

The ICT manager is responsible for:

- > Liaising with Schools ICT to ensure that an appropriate level of security protection procedures, such as filtering and monitoring systems and firewall, are in place to make sure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material
 - > Through liaison with Schools ICT, ensure that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly

This list is not intended to be exhaustive.

3.5 The Computing Lead

The Computing Lead is responsible for:

- > Ensuring that there is a robust and comprehensive computing curriculum in place which teaches children how to be safe online

3.6 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- > Ensuring that they have read and understood this policy and that it is implemented consistently
- > Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 3), and making sure that pupils follow the school's terms on acceptable use (appendices 1 and 2)
- > Knowing that the DSL is responsible for the filtering and monitoring systems and processes, and being aware of how to report any incidents of those systems or processes failing by notifying the DSL team immediately
- > Ensuring that any online safety incidents (including cyberbullying, safeguarding concerns etc) are dealt with appropriately and in a timely fashion, in line with this policy and all other relevant policies, the Safeguarding and Child Protection policy and the Good relationships and positive behaviour policy.

This list is not intended to be exhaustive.

3.6 Parents/carers

Parents/carers are expected to:

- > Notify a member of staff or the headteacher of any concerns or queries regarding this policy
- > Make sure that their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendices 1 and 2)

Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:

- > What are the issues? – [UK Safer Internet Centre](#)
- > Help and advice for parents/carers – [Childnet](#)
- > Parents and carers resource sheet – [Childnet](#)

4. Educating pupils about online safety

4.1 Pupils will be taught about online safety as part of the curriculum

All schools have to teach:

- > [Relationships education and health education](#) in primary schools

In **Key Stage (KS) 1**, pupils will be taught to:

- > Use technology safely and respectfully, keeping personal information private
- > Identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies

Pupils in **Key Stage (KS) 2** will be taught to:

- > Use technology safely, respectfully and responsibly
- > Recognise acceptable and unacceptable behaviour
- > Identify a range of ways to report concerns about content and contact

By the **end of primary school**, pupils will know:

- > That the internet can be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health
- > That people sometimes behave differently online, including by pretending to be someone they are not
- > That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others, including when we are anonymous
- > The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them
- > How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met
- > How information and data are shared and used online
- > What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context)
- > How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know
- > The benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing
- > Why social media, computer games and online gaming have age restrictions and how to manage common difficulties encountered online
- > How to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private
- > Where and how to report concerns and get support with issues online

The safe use of social media and the internet will also be covered in other subjects where relevant.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

4.2 Pupils will be taught practical cyber security skills

All pupils will receive age-appropriate training on safe internet use, including:

- > Methods that hackers use to trick people into disclosing personal information
- > Password security
- > How to keep personal information and passwords private and safe.
- > How to report a cyber incident or attack
- > How to report a personal data breach

Pupils will also receive age-appropriate education on safeguarding issues such as cyberbullying and the risks of online radicalisation.

5. Educating parents/carers about online safety

The school will raise parents/carers' awareness of internet safety in letters or other communications home, and in information via our website. This policy will also be shared with parents/carers.

If parents/carers have any queries or concerns in relation to online safety, these should be raised in the first instance with the class teacher and/or the DSL team.

Concerns or queries about this policy can be raised with any member of staff or the headteacher.

6. Cyber-bullying

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power.

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and encourage them to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Class teachers will discuss cyber-bullying with their classes.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for more detail).

The school also sends information/leaflets on cyber-bullying to parents/carers so they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school Good relationships and positive behaviour/Anti-bullying policies. Where illegal, inappropriate or harmful

material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

6.4 Artificial intelligence (AI)

Generative artificial intelligence (AI) tools are increasingly accessible and widely used. Members of the school community, including staff, pupils, and parents/carers, may be familiar with platforms such as ChatGPT or Google Gemini.

Staff must remain mindful of the risks associated with AI tools, particularly as many systems are still evolving. To ensure compliance with GDPR and to safeguard sensitive information, the school has adopted a secure, school-specific provider (The Key Support). Staff have received training on the safe and responsible use of AI, with particular emphasis on protecting personal data and maintaining confidentiality.

While the school acknowledges that a range of other AI platforms are available, these must not be used for policy-related communication, reporting to, or correspondence with parents/carers, or in any context that could compromise safeguarding, confidentiality, data protection, or the school's legal and professional responsibilities under GDPR.

Pupils will be taught to develop critical awareness of AI-generated content, including how to identify potential deepfake media and recognise indicators that content may have been created or manipulated using AI.

7. Acceptable use of the internet in school

All pupils, parents/carers, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 1 to 3). Visitors will be expected to read and agree to the school's terms on acceptable use, if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

More information is set out in the acceptable use agreements in appendices 1 to 3.

8. Parents and pupils using mobile devices in school

In essential circumstances (i.e. to support the independent travel of children in Years 5 and 6 to school), pupils may bring mobile devices into school. Mobile devices must be handed to an adult at the beginning of the day and will be stored in a secure place until the end of the day when they will be returned. Pupils will therefore not be permitted to use mobile devices during the school day for any reason. This includes any after school clubs or enrichment activities that children may take part in. Pupils are not allowed to use phone cameras or phone apps whilst on the school premises. Pupils are also not permitted to wear smart watches or to bring them to school.

Any breach of the acceptable use agreement by a pupil will be dealt with in line with the Good Relationships and Positive Behaviour policy and may result in the confiscation of their device.

Parents are strongly advised not to use mobile phone while on school premises during drop-off and collection times for making calls, texting or using social media. Using mobile phones on school grounds can be distracting and may prevent parents from being able to fully supervise their children.

The filming and photography on school grounds is strictly prohibited, unless specifically authorised by the headteacher or other senior members of staff (for example during specific school assemblies or productions). This can lead to safeguarding and privacy concerns for other children and families and will be dealt with appropriately which many include the involvement of external agencies.

9. Staff using devices

Staff will not use personal mobile phones and laptops, or school equipment for personal use, in school hours or in front of pupils.

All staff members will take appropriate steps to ensure their work devices remain secure. This includes, but is not limited to:

- > Keeping the device password-protected – strong passwords can be made up of 3 random words, in combination with numbers and special characters if required, or generated by a password manager
- > Ensuring that any updates to software (including anti-virus software) or the operating system are installed when prompted; seeking advice from Schools ICT should staff have any suspicions about unusual update requests
- > Ensuring that no new applications or software are installed by anyone other than Schools ICT or without their knowledge/under their supervision
- > Making sure the device locks if left inactive for a period of time
- > Not sharing the device among family or friends
- > Keeping operating systems up to date by promptly installing the latest updates
- > Staff members must not use the device in any way that would violate the school's terms of acceptable use, as set out in appendix 3.
- > Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from Schools ICT.

Where a staff member misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff code of conduct. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

11. Training for staff, governors and volunteers

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

The DSL and DSL team will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our Safeguarding and Child Protection policy.

12. Monitoring arrangements

The DSL logs behaviour and safeguarding issues related to online safety, including any concerns raised through the SENSO filtering and monitoring system. Any necessary incident report log can be found on CPOMS.

This policy will be reviewed every year. At every review, the policy will be shared with the governing board. The review will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

13. Links with other policies

This online safety policy is linked to our:

- > KMPS Safeguarding and Child Protection policy
- > Good Relationships and Positive Behaviour policy
- > Anti-bullying policy
- > Staff disciplinary procedures
- > Staff code of conduct
- > Data protection policy and privacy notices
- > Complaints policy

Appendix 1: EYFS and KS1 acceptable use agreement (pupils and parents/carers)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR EYFS/KS1 PUPILS AND PARENTS/CARERS

Name of pupil:

When I use the school's ICT systems (like computers) and get onto the internet in school I will:

- Ask a teacher or adult if I can do so before using them
- Only use websites that a teacher or adult has told me or allowed me to use
- Tell my teacher immediately if:
 - I select a website by mistake
 - I receive messages from people I don't know
 - I find anything that may upset or harm me or my friends
- Use school computers for schoolwork only
- Be kind to others and not upset or be rude to them
- Look after the school ICT equipment and tell a teacher straight away if something is broken or not working properly
- Only use the username and password I have been given
- Try my hardest to remember my username and password
- Never share my password with anyone, including my friends
- Never give my personal information (my name, address or telephone numbers) to anyone without the permission of my teacher or parent/carer
- Save my work on the school network
- Check with my teacher before I print anything
- Log off or shut down a computer or other device when I have finished using it

I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.

Signed (pupil):

Date:

Parent/carer agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and will make sure my child understands these.

Signed (parent/carer):

Date:

Appendix 2: KS2 acceptable use agreement (pupils and parents/carers)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET:

AGREEMENT FOR KS 2 PUPILS AND PARENTS/CARERS

Name of pupil:

I will read and follow the rules in the acceptable use agreement policy.

When I use the school's ICT systems (like computers) and get onto the internet in school I will:

- Always use the school's ICT systems and the internet responsibly and for educational purposes only
- Only use them when a teacher is present, or with a teacher's permission
- Keep my usernames and passwords safe and not share these with others
- Keep my private information safe at all times and not give my name, address or telephone number to anyone without the permission of my teacher or parent/carer
- Tell a teacher (or sensible adult) immediately if I find any material that might upset, distress or harm me or others
- Always log off or shut down a computer when I've finished working on it

I will not:

- Access any inappropriate websites including: social networking sites, chat rooms and gaming sites unless my teacher has expressly allowed this as part of a learning activity
- Open any attachments in emails, or follow any links in emails, without first checking with a teacher
- Use any inappropriate language when communicating online, including in emails
- Create, link to or post any material that is pornographic, offensive, obscene or otherwise inappropriate
- Log in to the school's network using someone else's details
- Arrange to meet anyone offline without first consulting my parent/carer, or without adult supervision

If I bring a personal mobile phone or other personal electronic device into school:

- I will hand it in to an adult at the start of the school day
- I will use it responsibly, and will not access any inappropriate websites or other inappropriate material or use inappropriate language when communicating online

I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.

Signed (pupil):

Date:

Parent/carer's agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and for using personal electronic devices in school, and will make sure my child understands these.

Signed (parent/carer):

Date:

Appendix 3: acceptable use agreement (staff, governors, volunteers and visitors)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR STAFF, GOVERNORS, VOLUNTEERS AND VISITORS

Name of staff member/governor/volunteer/visitor:

When using the school's ICT systems and accessing the internet in school, or outside school on a work device (if applicable), I will not:

- Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material)
- Use them in any way that could harm the school's reputation
- Access social networking sites or chat rooms
- Use any improper language when communicating online, including in emails or other messaging services
- Install any unauthorised software, or connect unauthorised hardware or devices to the school's network
- Share my password with others or log in to the school's network using someone else's details
- Take photographs of pupils without checking with teachers first
- Share confidential information about the school, its pupils or staff, or other members of the community
- Access, modify or share data I'm not authorised to access, modify or share
- Promote private businesses, unless that business is directly related to the school
- Use a personal mobile phone in school hours or in front of pupils without specific permission from the headteacher

I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role.

I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems.

I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.

I will let the designated safeguarding lead (DSL) and ICT manager know if a pupil informs me they have found any material that might upset, distress or harm them or others, and will also do so if I encounter any such material.

I will always use the school's ICT systems and internet responsibly, and ensure that pupils in my care do so too.

Signed (staff member/governor/volunteer/visitor):

Date:

Appendix 4: online safety training needs – self-audit for staff

ONLINE SAFETY TRAINING NEEDS AUDIT	
Name of staff member/volunteer:	Date:
Question	Yes/No (add comments if necessary)
Do you know the name of the person who has lead responsibility for online safety in school?	
Are you aware of the ways pupils can abuse their peers online?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, governors and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents/carers?	
Are you familiar with the filtering and monitoring systems on the school's devices and networks?	
Do you understand your role and responsibilities in relation to filtering and monitoring?	
Do you regularly change your password for accessing the school's ICT systems?	
Are you familiar with the school's approach to tackling cyber-bullying?	
Are there any areas of online safety in which you would like training/further training?
