The ABCs of Climate Action Plans

A Climate Action Plan sets your education setting, nursery or college up for a sustainable future — whether it's through your buildings, outdoor spaces or curriculum. It's centred around four pillars which help bring about a multitude of wellbeing, learning and environmental benefits for your learners and your community:

- **Adaptation and resilience**
- **Biodiversity**
- **Climate education and green careers**
- **Decarbonisation**

Climate Action Advisors are experts, who offer free support for schools, colleges, and nurseries across England. They support schools to understand their carbon impact, make effective plans, and find funding and resources. They work with schools of any size, even those that are just starting their sustainability journey. They also spotlight local opportunities for how schools can work together.
