

Pre-writing training for EYFS, SEN Leaders and Practitioners.
Everything you need to know about getting ready to write super sentences in Reception!

The Writing Framework sets out ambitious expectations for our schools and it is more important than ever that our youngest children are writing-ready. Learning to write is a step-by-step process, so this course provides much-needed clarity and busts all the myths relating to developing and engaging young writers, right from the start.

From Scribbles to Sentences is a highly practical course with numerous hands-on ideas and simple suggestions that you can implement immediately. Attendees will join in with activities and stories to inspire and develop prewriting skills at every stage. There'll be time to share ideas with colleagues, reflect on next steps and tap into the experience of an expert. Essential subject knowledge is paired with lots of active learning for a truly memorable experience, with great impact!

What you'll learn:

- What comes before writing, including what a progression in writing looks like from birth.
- Why and how vocabulary impacts on prewriting development, and what to do about it.
- What mark making really means and how to ensure progression through meaningful experiences.
- The role of talk for oral and composition, and how to achieve super sentence speakers.
- New ideas for fine and gross motor development using carefully considered continuous provision.

This is essential training for everyone working with children aged 2, 3, and 4, or SEND practitioners working at the earliest stages of prewriting development.
