

Teaching children who need the most support, including those with SEND.

This CPD programme explores the appropriate teaching, support and provision of phonics teaching for children not reading at age-related expectations, with a particular focus on those with Special Education Needs and Disabilities (SEND). It draws on the latest research about how children learn to read, and effective approaches to teaching those who need specific adaptations to make progress. The programme will enable participants to confidently assess, plan and teach reading to all children using the guidance and resources from their chosen SSP programme.

Course Details!
