

THE SCHOOL'S EDUCATIONAL PHILOSOPHY

The school's aims are as follows:-

To provide a broad and balanced curriculum which gives priority to literacy, numeracy and science.

To provide a happy, stable and disciplined environment in which all children can learn and are encouraged to realise their full potential both academically and socially.

To encourage in our children a sense of responsibility to each other and respect for their values and beliefs.

To help our children develop a pride in their work, their appearance and their environment.

To teach our children the value of good manners and the need to accept responsibility for their own actions.

To adhere to the school's Christian tradition but at the same time develop an understanding and respect for the beliefs of others. As such, all children (whatever their religion) are expected to take a full part in the life of the school.
