## Aims

At The King's School Witney, all members of the school community are valued as individuals created in the image of God. The school's vision, (nurturing children in godly character), mission (to serve and influence others through godly attitudes and actions) and virtues (Biblical Wisdom, Sacrificial Love and Spirit-led Faith) form the framework within which the PSHE programme has been developed.

The DfE Guidance on equality states 'schools should ensure that the needs of all pupils are appropriately met, and that all pupils understand the importance of equality and respect. Schools must ensure that they comply with the relevant provisions of the Equality Act 2010 under which sexual orientation and gender reassignment are among the protected characteristics. ... At the point at which schools consider it appropriate to teach their pupils about LGBT, they should ensure that this content is fully integrated into their programmes of study for this area of the curriculum rather than delivered as a stand-alone unit or lesson. Schools are free to determine how they do this, and we expect all pupils to have been taught LGBT content at a timely point as part of this area of the curriculum.' We have endeavoured to meet this requirement through this policy and the RSE policy. At The King's School we promote respect for all. We also respect the right of our children, their families and our staff to hold beliefs that may be in tension with some aspects of our PSHE and RSE programmes of study.

The PSHE policy links to and must be read in conjunction with the following policies:

Equality and Diversity Policy  
 Anti-Bullying Policy  
 Behaviour Policy  
 Curriculum Policy  
 Safeguarding Policy  
 Relationships and Sex Education Policy  
 SEND policy  
 Online Safety Policy

## How PSHE is taught?

*'Effective teaching in these subjects will ensure that core knowledge is broken down into units of manageable size and communicated clearly to pupils, in a carefully sequenced way, within a planned programme of lessons.'* - Department for Education (2019, P8)

The PSHE Association Programme of Study sets out learning opportunities for all pupils based on three core themes.

Core Theme 1: Health and Wellbeing  
 Core Theme 2: Relationships  
 Core Theme 3: Living in the Wider World.

These core themes are taught throughout each year from Early Years to the end of KS4. These themes are taught using a spiral approach in which pupils will see the same topics throughout their school career, with each encounter increasing in complexity (as is appropriate to pupils' ages) and reinforcing previous learning. The curriculum covers knowledge, skills, attitudes and biblical principles and the content covered is designed to be appropriate for the age and development of pupils. The full programme is included in the policy as Appendix One.

PSHE will be taught in bespoke lessons, as well as in related curriculum areas (e.g., science, PE and computing) to ensure a holistic approach. PSHE will also be covered through school assemblies and via external agencies where appropriate. Where external agencies are used to enhance the delivery of our PSHE curriculum, their credentials will always be fully checked by the school. We will ensure that any teaching by visitors fits in with our planned programme, our published policy, and the beliefs and ethos of our school. We will also ensure that any materials they plan to use are age-appropriate and accessible to all pupils, including those pupils with SEND. We will ensure that all visitors understand how confidentiality works and how safeguarding reports should be dealt with in line with school policy.

## **How PSHE is monitored and evaluated?**

*Schools should have the same high expectations of the quality of pupils' work in these subjects as in other curriculum areas* – Department for Education (2019, P43)

This policy will be monitored by Heads of School, the Principal, the Board of Governors who will monitor and evaluate the implementation of the programme, and pupils' knowledge and understanding through:

- PSHE workbooks which will include assessment and evaluation tasks
- Pupil voice (interviews, school council, focus groups, pupil surveys)
- Lesson observations, learning walks and monitoring
- Teacher evaluation
- Displays
- Analysis of behaviour record on My Concern
- Use of My Voice

## **Pupil Voice**

*Listening and responding to the views of young people will strengthen the policy, ensuring that it meets the needs of all pupils* – Department for Education (2019, P12)

All pupils will be given the opportunity to give feedback.

In EYFS, this will often be via their Key Person whose role is to make sure the child feels safe, secure and well-cared for, and to build good relationships with their parents. Staff will listen to and take note of any issues raised by parents or children themselves, and will also be alert to any behavioural issues that may require certain action to be taken, or a matter to be discussed in class. If the Key Person has concerns about anything the child has raised, the appropriate safeguarding measures will be followed.

In Primary, pupils will be given the opportunity to give verbal feedback or to use the suggestion box, prayer box, or My Voice. Pupils will also be given the opportunity to ask any questions. Where a question is relevant to the whole class, we will answer it to the whole group. If staff feel that a question is not suitable for the whole group, they may defer answering to a more appropriate time. If staff have concerns about pupils' questions or responses in class, the appropriate safeguarding measures will be followed.

In Secondary, pupils will be given opportunities to give verbal and written feedback to their teacher or to a trusted trained adult. Pupils can use the internal reporting system which uses a QR code to report a concern and request to speak to a teacher of their choice. If there are safeguarding concerns, the appropriate safeguarding processes will be followed. Pupils will also have access to My Voice. My Voice provides secure anonymous access for reporting concerns. It aims to provide an open culture of safeguarding within TKS Witney and will help provide better support for anyone who needs it. All pupils will be given the opportunity to ask any questions they may have or to present their views in balanced debate. Questions will always be acknowledged and responded to, and different points of view respected. If staff have concerns about the

nature of pupils' questions or their responses in class, the appropriate safeguarding measures will be followed. Furthermore, school council meetings will provide regular opportunities for elected representatives to ask questions or raise issues with the SLT on behalf of pupils. Feedback and any actions will be provided in a timely manner.

## **Roles and Responsibilities**

The Board of Governors will approve the PSHE policy and hold the principal to account for its implementation.

The principal is responsible (with the Heads of School) for ensuring that PSHE is taught consistently across all phases of the school.

Staff are responsible for:

- Delivering PSHE in a sensitive way
- Modelling positive attitudes to PSHE
- Monitoring progress
- Responding to the needs of individual pupils

Pupils are expected to:

- Engage fully in PSHE and, when discussing issues related to PSHE, treat others with respect and sensitivity

This policy has been written with reference to the following documentation and this is reflected in the PSHE Programme of Study:

Equality Act 2010

Independent Schools Standards

EHRC Technical Guidance for Schools in England (2023)

## **TKS EY Personal, Social and Emotional Development**

PSED is one of the prime areas of learning in the EYFS. It is a key area to focus on to help children be secure in who they are, to undergird their learning across the curriculum and to lead healthy and happy lives. We recognise the importance of warm, nurturing relationships with adults which support children in beginning to understand their own feelings and the feelings of others. We support children in making friends and building positive relationships with those around them, helping them to cooperate with one another and learn how to resolve any relational difficulties. We seek to help children develop the necessary understanding and skills to look after themselves and live healthy lives. We want children to be eager, confident learners who can direct their attention appropriately, persevere and show resilience when challenges occur. (See EYFS Statutory Framework 1.6 *Educational Programmes – Personal, Social and Emotional Development*).

With regard to the protected characteristics of gender, sex and sexual orientation, we will be guided by questions and comments which come from the children and will liaise as needed with parents so conversations can be happening at home as well as at school.

Whilst circle times on a given topic can be helpful, for example to explore a problem that has arisen, teaching and learning in the EY are very much cross-curricular by nature. PSED is therefore not always taught as a discrete subject but is very much embedded in the everyday across the year (see below). There can also be a particular emphasis given to various aspects of this learning area at different times of the year as part of topics, as follows:

- Children develop increasing independence in their self-care and personal hygiene (eg using the toilet, washing hands, looking after their belongings, dressing and undressing, making healthy food choices etc)
- Staff support children to say 'no' to others where appropriate, and to voice their feelings and opinions appropriately
- Staff support children to speak up and inform an adult if there is something they are worried about or when someone has been unkind or hurt them.
- Staff step in, if necessary, where dominant children may try to exercise undue influence over others, talking things through with all involved
- Children know right from wrong, and do their best to behave accordingly
- Staff teach children to respect each other's personal privacy
- Staff help children to understand choices and consequences
- Children are increasingly able to engage with new activities and experiences
- Staff support children to show resilience in the face of challenges
- Children develop a sense of responsibility and learn to serve others (eg as the class helper)

#### **Building Relationships**

- Staff build supportive relationships and communicate well with parents and carers
- Staff support children in connecting and building relationships with their peers, and in showing sensitivity to their needs and feelings
- Staff build relationship with children by getting alongside them during their play and holding back and forth conversations
- Children become increasingly confident in relating to unfamiliar adults
- Children learn to respect one another – eg each other's choices, efforts, work, creations, differences
- Children learn to respect the adults who care for them (parents and practitioners)
- Children learn to respect others and to express appreciation by being polite
- Staff unpack with children what it means to love one another and seek to demonstrate the way of love as adults
- Children learn to take turns and share resources
- Staff support children in listening to and responding appropriately to the feelings and wishes of their peers
- Children learn the importance of saying sorry and putting things right where we can
- Children learn the importance of forgiveness in order to sustain healthy relationships
- Staff teach children that physical aggression, name calling and bullying behavior are unacceptable
- Staff teach children the importance of asking permission and giving permission as part of respecting one another
- Staff challenge inappropriate, disrespectful or unkind comments relating to sex, sexuality or other protected characteristics
- Staff encourage children to work together as a team and to value teamwork (eg at tidy up time)
- Staff support children to deal with disagreements where needed and to problem solve together when there are differences
