Computer Opportunity!

Dear Parents and Carers,

I am writing to inform you of an exciting opportunity that may be of interest to you and your family. As part of a recent update by Microsoft specifically for educational establishments, we have been advised that our current computers will no longer be permitted for use in school. Consequently, we find ourselves in possession of several computers that are still in excellent working order and have recently been upgraded with additional memory.

In light of this situation and prior to our disposal of equipment that could be beneficial for families, we would like to offer our school community the opportunity to purchase one of these computers for a donation of £60. When purchased new, these computers were over £600 each. We believe this presents a valuable chance for families who may be in need of a reliable computer for home use, particularly as we continue to navigate through an increasingly digital world. The computer would come complete with a monitor, mouse and keyboard, as per the image below.

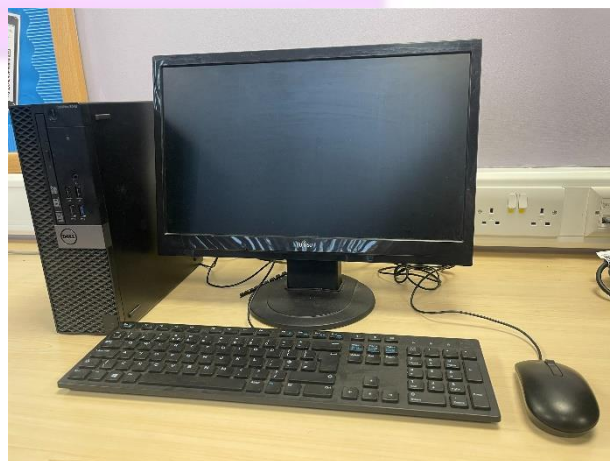

The funds raised from these donations will be directly allocated towards the purchase of new computers for the school, ensuring that we continue to provide our students with access to the technology as part of their education.

If you are interested in purchasing one of these computers, please complete the form [St. Francis - Computer Offer – Fill in form](#) by Friday 21st November to secure your order.

Thank you for your continued support and partnership in ensuring the best learning environment for our children.

Yours sincerely,

Mrs Gibbons
Headteacher

Together in truth and faith we learn and grow as God's family
