Dear Parents and Guardians,

On **Friday 13th February** (please note this is a change of date), St Francis school will be taking part in the annual national **NSPCC Number Day**. We will participate in this fundraising event by playing maths-themed activities and games throughout the day.

For a £1 donation, children can "**Dress up for Digits**", which means they can wear clothing with numbers on (football, rugby, netball, hockey shirt or cap) or a number themed costume or outfit. Your child could get even more creative and become a human calculator, dice or domino! Any money raised will be donated to the NSPCC to support their vital services, such as Childline.

There will also be a national competition running on **Friday 6th February** on **TT Rockstars**. The competition runs from 7:30am to 7:30pm online via play.ttrockstars.com. Children can play in any game mode with every correct answer to a multiplication or division question, earning themselves, their class and the school a point.

Children in Years 2 to 6 will have the opportunity to take part in the competition during school hours but they can also play at home if you have spare time available on the day. To support player wellbeing, there is a daily time limit of 60 minutes per player. In other words, each player can earn competition points for up to 60 minutes during the competition. Once the player goes beyond 60 minutes of play on that day, they will still earn coins but will no longer earn points towards the competition.

There will be prizes for the top scoring player on TT Rockstars on the day in each class from Years 2 to 6 and prizes for a child who has tried really hard with the maths-themed activities and games in each class from Nursery to Year 1. There will also be prizes for the most enthusiastic mathematician in each class from Nursery to Year 6.

Thank you for your continued support – we look forward to celebrating Maths and supporting the NSPCC together!

Yours sincerely

Mrs O Pearson

Mathematics leader
