## All Souls CE Primary School School Newsletter Spring Term 1 Week 6

Our School Vision: *Experiencing life in all its fullness, we grow to be the best that we can be* – Based on John 10:10

Friday 13th  
February 2026

Dear Parents and Carers,

Wow, what a busy week we have just had, it seemed to disappear in a flash. Firstly, I would like to say a massive thank you to our wonderful PTA and all the parent volunteers, on the day, who made the Valentine's Disco such a rip roaring success! The event raised just over £600, which is absolutely fantastic, and will go towards some of our upcoming enrichment events.

As we all get ready to enjoy our much needed half term, I wanted to do a reminder about school uniform. Children need to come to school in a green sweatshirt or cardigan with the school logo, proper grey trousers (not joggers), unless they are in EYFS, and a yellow polo shirt with the school logo on it. We are seeing lots of joggers, white t-shirts and various kinds of jumpers creeping into school. Please make sure your child is wearing the correct uniform. To help with this, we will be holding a second hand uniform sale in the second week of school, next term. If your child is not wearing the right uniform, there will be a follow up letter being sent home. Thank you for your co-operation with this. We are so proud of our school, and its wonderful students, and our uniform is very much part of who we are.

Next term is going to pass by quickly too, as it is only 5 weeks long! A reminder that we will be celebrating World Book Day the second week back, and we will have our annual parade in Riding House Hall for all to come and see.

On that note, I hope you have a lovely half term and we look forward to seeing you back in school at 8:50 on Monday 23rd February.

## An important heads up for parents from Mary Rebelo, our online safety expert, regarding a new AI function on Roblox:

Roblox is currently testing a new AI system that estimates a player's age using a short video selfie to unlock the chat. The aim is to decide which chat features are available and who players are grouped with when chatting.

How chat normally works:

- Children under 13 can use text chat, it is heavily filtered and restricted;
- From age 9, children can text chat with other under-13 players they already know;
- Voice chat is intended for 13+ users only. Players aged 13+ will have access to less-restricted chat spaces.

What the new AI is trying to do:

- Decide whether a player is under or over 13;
- Group players, into chat spaces, with others it believes are a similar age;
- Reduce mixing between younger children and much older users.

When we talked about AI with pupils, many shared that the age estimation was often wrong:

- Some children were estimated as younger, meaning they suddenly lost text chat with friends;
- Others were estimated as older, which placed them into chat spaces with users who had been verified as older;
- In some cases, being estimated as older also changed which parental restrictions were applied.

A small number of children also said that an adult or older sibling had helped by using their face during age checks. While this may seem harmless, it can accidentally be unlocking 13+ features such as voice chat and/or placing children into chat spaces intended for older users. There is a reduction in the protections designed for younger players. A helpful reminder for families:

- Voice chat is 13+ for a reason, even if technology gets it wrong;
- Age checks should always reflect the child who is actually playing;
- If chat features suddenly appear, disappear, or change, children should tell an adult.
