How Does It Work?

A full suite of resources

A complete suite of teaching resources is provided for every lesson. Whether you teach KS2, KS1 or the whole of the primary phase – everything is catered for. Interactive teaching materials are provided for all lessons. We cover a wide variety of topics (including cross-curricular topics) with all instances of the foreign language pre-recorded using a native speaker and fully controlled by the teacher. No additional workload. No additional stress. No more pronunciation worries.

Designed by experts

Our experienced team of foreign language teaching specialists and linguists have spent thousands of hours over many years creating, testing and refining our lessons and resources to ensure they deliver each and every time.

Remote access for pupils

Give you pupils remote access to resources to support their learning from home via our Home School site or give them access to our fun and exciting interactive games – all designed to support and consolidate their learning.
