Dear Parents/Carers,

David Attenborough Day – 8th May 2026

On Friday 8th May, David Attenborough will celebrate his 100th birthday.

As a school, alongside the rest of the nation, we would like to mark this remarkable milestone by recognising his lifelong dedication to the natural world and the significant awareness he has raised around environmental protection and climate change.

Celebrating David Attenborough in school is a brilliant way to combine learning, creativity, and environmental awareness. During the school day on 8th May, all children will engage in some form of activity to acknowledge David Attenborough's work and passions.

We would love it if the children could get creative at home and produce a piece of work to showcase in school on 8th May. Some suggestions below but please feel free to come up with your own ideas.

- Draw or paint pictures of animals featured in Attenborough's work
- Create posters to encourage people to protect the planet
- Create a piece of artwork from recycled materials e.g. a collage

On this special day, children can also come to school dressed as their favourite animal, their favourite explorer or simply dress in a colour that is inspired by nature!

Kind regards,

Miss Crawford
