

Moon's Moat Nursery and First School

Food Allergies Policy 2025-2026

Moon's Moat First School & Nursey does not guarantee a completely allergen free environment but aims to minimise the risk of exposure by identification of hazards and distribution of information.

- Parents will initially highlight on a child's school admission form that their child has a food allergy
- Parents will be asked to complete a special diets form provided by the school's caterers to enable them to put together an appropriate meal plan if required
- Any change in a child's allergies must be reported to the school
- Parents should liaise with school about appropriateness of snacks and any food-related activities
- Lunchtime staff will be made aware of children with food allergies and an up to date list will be displayed in the school's kitchen
- The school's MIS system will be kept up to date with allergy information
- Teachers will be provided with allergy information at the beginning of each year, when information is updated and before any practical food activities take place
- As we are a nut free school all parents should ensure that lunches and snacks brought into School do not contain nuts.
