

Why is our World Wonderful?

This half term in Geography, Year 2 will be learning about the world's wonders, the names and locations of the world's oceans and they will also consider what is unique about the local area.

We are Scientists

In Science, the children will study the life cycles of various animals. They will learn what animals, including humans, need to survive and stay healthy. In addition, they will observe changes over time and collect and record data on their peers whilst developing their measuring skills.

Spring 2

Who's who in Year 2?

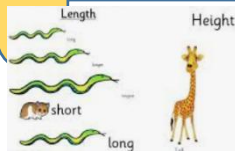

Ms Taryn Chapman

Mrs Alaina Baillie

Mr Sam Bird

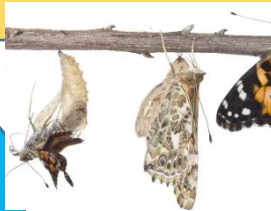

Support Staff:

Miss Yasmin Green

Maths

Our focus for this half term in Maths will be length and height, followed by mass, capacity and temperature. The children will measure in centimetres and metres, they will compare lengths and height and use the four operations in relation to these.

English

We will be reading 'The Ice Palace' in our writing lessons. We will continue to create imagery through various literacy devices.

WE LOVE TO READ!

Please read with your child at home and record it in their Reading Record books. Reading regularly, is so important for building fluency, speed and improving spelling and punctuation.

Design Technology

This term we will be looking at the different food groups and learning the importance of a balanced diet. We will be trying out different sandwich filler combinations and finally we will design and eat our own wrap.
