

Summer 2

What is it like to live by the coast?

In Geography the children will learn the names of the oceans around the UK, they will be able to say what a coast is and describe some of the physical features. They will also explore the human features on the coast.

Making Connections: Plant-Based Materials

In this Science unit, the children will consolidate their knowledge of materials and plant growth through enquiry. They will learn the terms reduce, reuse and recycle and will watch and be able to describe how paper is made. The children will choose a suitable material for a plant pot and then produce one using eco-friendly materials.

Who's who in Year 2?

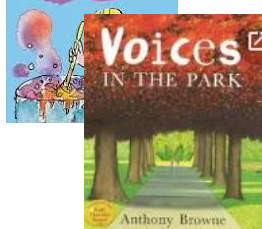

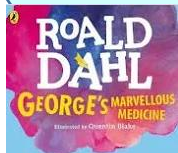

Mrs Alaina Baillie
Ms Taryn Chapman
Mr Bird

Support Staff:

Miss Yasmin Green
Mrs Yvonne Vallender

English

In Writing, the children will be exploring 'George's Marvellous Medicine' and they will be writing their own version of the story. We will also be looking at instructional language and writing our own recipe for a marvellous medicine!

WE LOVE TO READ

Please read with your child at home daily and record it in their Reading Record books. We will continue to check for our 'Regular Readers' (at least four reads per week).

Maths

Our focus for this half term in Maths will be statistics followed by position and direction. The children will learn to make, draw and interpret tally charts, block diagrams, pictograms and tables. After this, they will learn the vocabulary to describe position, movements and turns.
