

Gritting Plan

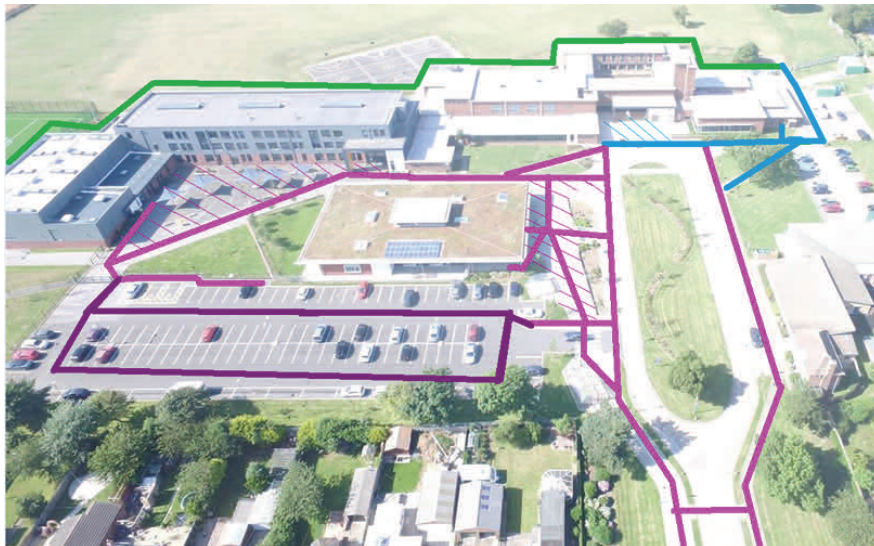

Visitors, students and staff are advised to take care in wintery weather. During icy conditions, main pathways are gritted as shown on the plan below. However, other areas may be slippery.

Anyone arriving early in the day while caretakers are still carrying out the gritting will need to take particular care.

A pathway around the car park is gritted as per the plan, but the full car park / spaces may be icy.

Visitors to the site in the evening should be careful as temperatures may drop and the car park may become icy.

- Zone 1** Main Drive, Main Access
- Zone 2** Kitchen / Reception
- Zone 3** Pathways (Rear)
- Zone 4** Pathways (Car Park)
