Parents As Partners

Website: [www.bredhurst.kent.sch.uk](http://www.bredhurst.kent.sch.uk)

## Bredhurst Church of England Primary Vision:

To learn and grow through the guidance and love of God.

Jesus said *"It is like a mustard seed, which is the smallest of all the seeds on earth. Yet when planted, it grows and becomes the largest of all garden plants, with such big branches that the birds can perch in its shade."*

Drawing on the parable from St Matthew's Gospel, all at Bredhurst are included and encouraged to grow and flourish; to be the best they can be.

Self Control

Perseverance

## Newsletter 09.01.25

Dear Parents and Carers,

I hope you all had a restful break and have come back feeling re-energised after Christmas – although I am never sure it is actually a time to rest as everyone seems so busy trying to fit everything in!

We returned to school with the children all looking very smart and ready for the new term. They were very excited to see the delivery of all the new lunchtime equipment! Please do remember to make sure you send your children in with a warm coat, a hat and gloves. The weather is very cold at the moment and although we do have the option of an inside place to colour and play at lunchtime we do encourage the children to go outside and get fresh air for 10-15 mins. All children are outside at breaktime.

This term, every class will be starting a **new topic**. The curriculum maps for the topics are on our website on our curriculum page. We are currently in Year B.

**Fir Tree class** are learning all about inventions! They will be looking at famous inventors and finding out about how they made an impact on our world. They will be planning and making their own inventions too, using mechanisms. In English, they will be reading stories and poems related to their topic. In Art they will be exploring colour, line and shape. They will create artwork using different machine parts (cogs) to provide texture. In DT they will be looking at mechanisms and creating their own sliders with moving pictures. Look out for their masterpieces, they could make them famous one day!

This term, **Forge class** will begin the topic, Amazing Animals, by identifying who Sir David Attenborough is and why he has become such a significant individual in our lives today. They will investigate the technology used over the years to capture the footage of amazing animals around the world and how changes in natural life has evolved. In geography they will name and locate the world's seven continents and five oceans, identify where the Equator is and locate the North and South. In Art and Design they will be identifying what a sculpture is and understanding how artists create sculptures. They will use clay creatively to design and make a chosen animal. In music they will be learning and singing songs about animals, listening to and composing music to represent different animals.

Did you know that the water we drink and use today is the same water dinosaurs drank! In **Hurstwood's** geography led topic this term, they will learn about the water cycle and rivers. The children will develop a growing understanding of the physical processes that shape rivers. They will identify the different parts of the water cycle and the different parts of a river and understand how they are formed. They will be able to

locate the main rivers in the UK and the world and understand how flooding has affected communities in the UK. In art they will be using water colour paint mixing, looking at the still life work of the Dutch masters as well as modern water colour work based on seashells and using these to create their own sketches and water colour pictures. In Music, they will be listening to Handel's Water Music and they will learn the Skye Boat song and record their own music in stave and dot form.

**Kemsley class** will be learning about many aspects of Ancient Greece with the aim of understanding what Greek life was like, the achievements of the Ancient Greeks, including the expansion of the Greek Empire, and the influence they had on the western world. They will become familiar with a range of Greek myths and legends and the Gods and Goddesses that are prominent in Greek mythology. In art they will learn how Greek pottery was created and what it was used for, before creating their own Greek pot. In music they will use their voices with increasing accuracy, fluency and expression to be able to sing songs linked to Greek or Greek Myths and legends.

**Oakwood class** are learning about why the Battle of Britain was such a significant turning point in British history. They will be looking at the impact it had on life in Britain and how this has affected social change in Britain today. They will be finding out about the reasons for and the main events of WW2. They will be reading the text 'Letters from the Lighthouse' to contextualise their learning. In art they will be focusing on Henry Moore, a war sculptor, and analysing and evaluating his work as well as using a variety of media to recreate his style of art. In DT they will be designing and making their own air raid shelters. In music they will be listening to the music of Glen Miller and learning about his life and career, as well as composing their own music, focusing on beat, rhythm and ostinato.

Some of the **upcoming events** for this term are:

- Cross Country Race, at Cliffewoods, information will be sent to the children who took in part in the previous races of the series Yr 5+6 only
